**THIRD TERM IS GIVEN A JOLT.**

*Spirited Speech Against It Heard In House.*

*Roosevelt's Words Used In Condemning the Idea.*

*Massachusetts Member Commits Himself on Question.*

**A. P. NIGHT WIRE TO THE TIMES**  
WASHINGTON, Feb. 6.—Applauded by a majority of the regular Republicans and sharply questioned by insurgents, Representative Samuel W. McCall of Massachusetts, long a prominent Republican in the House, aligned himself today with the movement against a third consecutive term.

In a speech liberally interspersed with insurgent interruptions Mr. McCall declared that American Presidents had set a precedent of retiring after a service of eight years, and urged the declaration made by President Roosevelt before the end of his term that he would not be a candidate for re-election.

Representative Norris of Nebraska, insurgent leader, questioned Mr. McCall repeatedly with the evident purpose of indicating that the sentiment among a third term probably was against a "third consecutive term," rather than against a third term served after a lapse of four years out of the White House.

"Very well, Mr. Roosevelt's statement may be right when it says serving his second term," Mr. Norris stated, "and in response to the suggestions that he become a candidate for a third consecutive term?"

"That is not necessarily true," Mr. McCall said. "But the statement will stand now on its merits."

**DANGEROUS POWER.**

The attacks of the Massachusetts Republican upon the danger that might lie in the use of Presidential power to enforce the nomination for a third term brought another interruption from the insurgent leaders.

"The man who has been here who has served eight years in the Presidency," Mr. McCall said, "these men could undoubtedly have stimulated their friends to such an extent that they would become candidates even after a lapse of four years."

He added that no President but Grant had ever attempted a third-term fight.

"We are defeated in the nominating convention, and I believe that he would have been more severely defeated at the polls had he been nominated," Mr. McCall said.

The tremendous influence of ex-vice-president in the hands of one strong, unscrupulous man, may easily be adequate in critical times to remove all limitations on his tendencies and to change the course of events of the government, said Mr. McCall.

**THE ROOSEVELT WORDS.**

Mr. McCall dwelt at length on utterances of Theodore Roosevelt, saying the latter had not attempted to embroil or quibble over the technicality of a "second elective term."

Twice he quoted from Roosevelt's statement of his nomination in 1904 the following sentence:

"Under no circumstances will I be a candidate for or accept the nomination."

**DETROIT.** (A. P. NIGHT WIRE TO THE TIMES)

DETROIT, Feb. 6.—(Exclusive Dispatch) That the Republicans of the North are for Taft and the Democrats for Wilson, and that Roosevelt has lost standing there to such an extent that he actually would not be safe, is the opinion of George E. Gordon, of New York, president of the Travelers' Life Insurance League, who arrived here yesterday from a tour of the South and West.

"Roosevelt has lost much of his popularity in the West," says Mr. Gordon. "He could not hope to receive the endorsement of New York or any of the other eastern States, so I don't think he will get his Presidential nomination. The progressive sentiment is by no means confined to the West."

**WILL LOSE THEIR JOBS.**

McCall recalled that on June 10, 1901, after President McKinley had entered upon his second term, he put himself officially on record again in third term by saying he would not accept the nomination if it were tendered him. President Roosevelt, he declared, was equally emphatic in his refusal to consider a third term.

The nation has no poverty in men," said Mr. McCall in conclusion. "It possesses hundreds of citizens capable of performing with high honor the duties of the Presidency. And it will always be possible to find in the ranks of many of American citizenship a leader in order to secure a head for the State that to do violence to the uniform precedents of our history and to repudiate the principles of our great national institutions, established by George Washington and cherished by the nation down to this hour."

**DETROIT. (A. P. NIGHT WIRE TO THE TIMES)**

TOPEKA (Kan.), Feb. 6.—Col. Roosevelt told me that he considered it the duty of every American citizen to answer the call of his country, whether it was in time of war or peace. He was the statement Gov. W. E. Stubbs made here today on his return from a trip to the East and a visit with Col. Roosevelt at the Outlook office in New York.

Gov. Stubbs reiterated that Col. Roosevelt was not seeking and did not desire the presidential nomination, but declared that he was "available" and would accept it if it was offered to him.

The Roosevelt boom is like a running horse, said the Governor. "It is going to keep on running until it is stopped. I was surprised to find that many of his big interests in the East still believe in fairness. He is for Roosevelt for President. I was surprised to find him to be a statesman on all sides. The progressive sentiment is by no means confined to the West."

## UNION LEADERS PLAN DEFENSE.

*Let Secretly in Chicago to Consider Indictments.*

*Will Appeal to Unions for a Gigantic Contribution.*

*Want Fund Surpassing that Raised for McNamara.*

(BY DIRECT WIRE TO THE TIMES.)  
CHICAGO, Feb. 6.—[Exclusive Dispatch.] It has been known today that a secret meeting of Chicago union leaders, instigated by local leaders who are said to be named in the indictments drawn up by the Indianapolis Federal grand jury, was held in the Victoria Hotel.

Plans for the defense of the men were outlined. The most important step taken, it is said, was a decision to appeal to the national union-leader front to raise a gigantic defense fund for the men who are believed to have been indicted.

The fund will reach and may even eclipse the sum raised to defend the McNamara brothers, out of whose dynamiting case the present Federal action has grown.

Three steps in all were agreed upon at the meeting.

First.—The selection of bondsmen for the indicted Chicagoans.

Second.—The names of lawyers chosen for the defense.

Third.—The decision to appeal to union labor for a defense fund.

**REFUSE TO TALK.**

Labor leaders today refused to comment on the critical situation that has developed. Conferences were held in many of the union headquarters, but they were conducted with the strictest secrecy.

Twenty operatives of the Bureau of Investigation of the Department of Justice in Chicago were today ordered by Stanley W. Finch, head of the bureau in Washington, to hold themselves ready for orders from Federal District Attorney Miller at Indianapolis. Similar orders were sent to the departments in Indianapolis, Boston and Dayton, O.

In this connection it was learned more than 120 operatives have been engaged in various places running down clues. An unusual part of the case was that none of the operatives had an idea as to what the others were doing, each accounting for the strict secrecy that has been maintained in the investigation.

"I can't say what this office will do," said Charles F. de Woody, of the local Department of Justice. "In the ordinary course of events, the man is indicted in some other place. We wait until a certified copy of the indictment is received before we make any arrest. But I don't know anything about this case. I'm talking now of the procedure in former cases."

**PROMPT ARRESTS EXPECTED.**

Despite the reticence of the government agents no man was ever sent in to arrest building that as soon as the prospective indictments were returned in Indianapolis word would be flashed into Chicago and arrests would immediately follow.

That men heretofore not considered in connection with the dynamite case and their names not mentioned in statements by Orte E. McManigal, is another statement from the capital of Indiana. One of the affairs under investigation, among others, is said to be the dynamiting of the Ingalls Steel Mill at South Chicago. One reason had it that Chicagoans may be found to have been implicated in this.

**MAKES A TEARFUL PLEA.**

President Gompers of American Federation of Labor Discusses Intent to Disobey Court Order.

(BY A. F. NIGHT WIRE TO THE TIMES.)

WASHINGTON, Feb. 6.—Samuel Gompers, president of the American Federation of Labor, made an unequivocal statement of lay terms over the judgment of the Supreme Court of the District of Columbia, when he took the stand today in his own defense against the charge of contempt in connection with the Buck's Steeple and Range Company boycott case. His testimony was not completed and he will be a witness again tomorrow.

Mr. Gompers insisted under oath that his editorials in the American Federationist and the utterances of himself and other leaders of organized labor during the campaign of 1906 were not intended to aid or abet the boycott of the company. For these alleged acts in violation of the court's order, Mr. Gompers was sentenced to one year and fined \$1,000 to nine months and Secretary Morrison to six months in the Washington jail.

Mr. Gompers explained that his speeches were based on his understanding of the American right of free speech. He pointed out that in one instance cited by the committee of attorneys who are prosecuting him, and stated that the boycott of the Buck's Steeple and Range Company boycott case. His testimony was not completed and he will be a witness again tomorrow.

**BURGLAR MAKES APOLOGY.**

Excuse Himself When Confronted by Denver Woman in Her Home and Abandons His Mission.

(BY A. F. DAY WIRE TO THE TIMES.) DENVER, Feb. 6.—"Excuse me, I didn't know you were home. I merely intended to burglarize your house. Since you are here, I will not attempt to harm you, I guess; good-bye."

This is what a polite burglar said to Mrs. Grace Maxwell at her home early this morning.

Mrs. Maxwell had heard someone open the window. She turned on the lights and confronted the intruder, who lifted his hat and passed out through the front door.

**Farmers Demonstration Train.**

The demonstration train of magnificently appointed cars, demonstrating the progress of agriculture, selected seed and sound lighting of disease-free fruits, political lectures by a cornucopia of speakers, and other exhibits, fruit growers and stock men, meeting in Los Angeles, Feb. 10, 1908, Wednesdays, February 7, Train park at Southern Pacific Station, Fifth and Central Avenue.

## UNIONITES INDICTED.

(Continued from First Page.)

of men even within easy reach would not be effected at once, he said. By demanding a copy of his indictment on arrest, a defendant could reveal the names of others.

**ARRESTS ON SAME DAY.**

"It is our plan to facilitate the work of the agents that are to make the arrests over the country by not making public the names until all are within hand's reach," said Mr. Miller.

"All the arrests are to be made on the same day, wherever the men live or may bejourning, so that no one refuses to say anything now as to the positions these men hold, whether they are what are known as 'higher-ups' or not. But we are highly gratified with the result of this widespread inquiry."

"The arrests may not be made until Saturday of this week, or Monday of next. There are 300 typewritten pages in the indictments and a copy to accompany the copies. Two days probably will be required for the clerical work, and the processes must then be delivered to the United States Marshals of the various districts in which they are to be served. All this will require four or five days."

Walter Drew, counsel for the National Erectors' Association, an organization of "open-shop" iron and steel contractors, whose members have suffered from explosions against their property, called at the District Attorney's office.

"This is the culmination of years of effort on the part of the Erectors' Association, not only to protect its members from loss, but to clear the labor unions of the criminal element," Mr. Drew said.

"I have devoted my whole time to the interests of the Erectors since the spring of 1904, cancelled its contract with the International Association of Bridge and Structural Ironworkers and declared for open shop."

"The public does not now realize the fact that this movement began when the arrests are made, and the facts become known, the enormity of the government's task will appear. Workmen and society generally will be benefited."

### Extensive Plot.

## DYNAMITERS TRY HUNDRED TIMES.

### EXPLOSIONS IN MANY STATES FIGURE IN CONSPIRACY.

Government Investigation Based on Theory that All Were Perpetrated by Unions in Attempt to Drive Honest Workmen from Jobs. Activity Traced for Six Years.

(BY A. P. NIGHT WIRE TO THE TIMES.) INDIANAPOLIS, Feb. 6.—Fully 100 explosions of dynamite at various times over the last sixteen States, and covering a period from the summer of 1905 to October 26, 1911, when dynamite was found beneath a bridge near Santa Barbara, Cal., just before President Taft's special train passed over it, were incurred into by the Federal grand jury which has investigated what the government has regarded as a nation-wide dynamite conspiracy.

It has been the theory of the government that all of these explosions were intended to intimidate employers and non-union workmen with the general intent to abolish the so-called "open shop," and compel submission to the demands of certain labor organizations more particularly the International Union of the Bridge and Structural Ironworkers.

The States in which explosions occurred were Ohio, Indiana, Illinois, Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Michigan, Wisconsin, Iowa, Kansas, Nebraska, Utah, California and Washington, Ohio, with twenty explosions, had more than any other one State, Illinois, Indiana and New York follow in the number of respect of the number of the explosions.

There were two explosions in 1905; nine in 1906; six in 1907; twenty-six in 1908; twenty in 1909; twenty-five in 1910; and ten in 1911. These figures are exclusive of the explosion which wrecked the Los Angeles Times plant, and resulted in the confessions and imprisonment of the brothers James and James H. McNamara, John J. McNamara was president of the International Association of Bridge and Structural Ironworkers.

EXHIBIT OF FACTS.

The preliminary exhibit of facts and allegations about the explosions and their supposed origin was gathered and presented to the Federal grand jury by the National Erectors' Association, an organization of iron and steel manufacturers and contractors who had declared for the "open shop." After the explosion in 1905, the Erectors' Association was formed, and in May, 1906, after declaring as an organization for the "open shop," engaged detectives to seek out the identity of those responsible for the explosion.

One of the first instances of finding of hidden explosives occurred before the erectors organized and followed an attempt to blow up a building in East Twenty-third street, New York, in 1906. One of them confessed to having received \$150 on one occasion for a "job," and \$100 for cutting a cable. He told of the location of 100 one-pound sticks of dynamite which were being stored by firms employing non-union labor, had been blown up before Orte E. McManigal appeared on the scene, and before he began to work with John J. and James B. McNamara, a professional dynamiter.

The investigation of the conspiracy, after the plea of guilty had been made by the McNamara brothers, was continued, to ascertain who else, if anyone, participated in or gave financial support to the plot.

October 25—Indianapolis, Ind.: Albert Von Spreckels' Central Union Telephone Exchange building, Public Library, Von Spreckels' Planing Mill and hotel, \$10,000.

## Classified Liners.

**FOR SALE—** Ranch Property.  
FOR SALE—  
TEXAS-DALWORTH-TEXAS.

**THE GREAT STATE OF OPPORTUNITIES**  
is the place to make your investments  
this year.

DALWORTH.

A fast-growing city, situated on the Dallas-Worth Interurban line, midway between Dallas and Fort Worth, and is one of the most rapidly growing towns in the state. The main line of the Texas & Pacific and the Dallas-Ft. Worth and driveway also runs through the center of the city, making it the most important trade center town in the state of Texas. The natural gas main running from the great oil fields of East Texas, Oklahoma, and Kansas, passes through the city of Dalworth. Ft. Worth, Arlington, Grand Prairie, Oak Cliff and Dallas, passes right through the city, making it a great manufacturing center, every home as well as for the manufacturing enterprises.

Vine.

## Cities and Towns of Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

Pasadena.

ASK SUPPORT  
OF THE BONDS.Crown City Officials Issue  
Appeal to Voters.Failure, They Say, Will  
Cause Trouble.Large Sum Raised by Schu-  
mann-Heink Concert.(Office of The Times, No. 123 Fair Oaks Ave.)  
PASADENA, Feb. 7.—The polling places for today's garbage incinerator bond election will be open at 7 a.m. at the polls at Pasadena High School, 500 North Harrison Street; Second, City Hall; Third, rear of No. 476 East Colorado street; Fourth, No. 44 West Green street; Fifth, No. 1182 North Fair Oaks avenue; Sixth, No. 1176 East Colorado street.

Owing to difference of opinion as to a site, the election will probably be hotly contested. It will be the first opportunity for women of the city to vote in Pasadena, and many of them will cast their initial ballot.

The amount of the proposed bond issue is \$60,000. This includes the cost of a site. The following signed statement was issued yesterday by Mayor Thum and members of the City Council:

"This serious problem of disposing of our garbage was thrust upon Pasadena unawares. In order to protect the large property interests of the city at the city hall, and in order to prevent action by Alhambra, the Board of Supervisors and the people living in the vicinity of the farm, which threatened, not alone to throw all of the garbage back upon the city, but also prevent the discharge of sewage at the farm, it was absolutely imperative that prompt action be taken looking to the construction of a garbage incinerator.

"If bonds are not voted this city will undoubtedly be precipitated into a bitter fight with the county authorities of Alhambra and Glendale, the outcome of which cannot be foretold. It is serious enough that the failure of the bonds may result in our being forced to come, not alone to our own detriment, but also to that of the community.

"In these circumstances we feel it our duty to urge the people to vote the incinerator bill. The question of the location of the proposed incinerator is of far less importance. In view of the interest taken by the people in the location, we have expressed our entire willingness to leave the determination of the location entirely to the people."

"We propose to do this in such a way that the people may express their wishes fairly. We will not stand for any dummy sites or any jobbing. Each town has long been the victim of the fairness and good judgment of the people, and we are entirely content to abide by their determination in respect to the site."

The East Side Improvement Association and allied forces are working against the passage of the bonds.

COUNCIL IS ACTIVE.

The City Council chamber came far from being a quiet place yesterday when the proposed ordinance which practically legislates Dr. W. A. Boucher, City Veterinarian, out of office, came up for consideration on second reading.

Councilman Fogg raised a vigorous objection to the measure and a protest signed by 121 dairymen, whose cattle are inspected by the city, was presented. Roy Allard, Doctor Smith, pastor of the First Baptist Church, who is himself a dairymen, declared that the signers feel they have been made the "victims of experimentation" long enough. Mayor Thum replied that the customers are in reality paying the bills, and a general protest ensued. At length it was decided to postpone action upon the question for another week and give further consideration in the meantime.

Dr. Boucher himself was not present at the session. The veterinarian who has been selected for his place is Dr. Hurl, against whom the objection is made by Boucher's friends that he is not a resident of the city.

LARGE SUM IS RAISED.

The proposed auditorium at the Techne Polytechnic Institute is now about \$12,000 nearer a reality than it was the day before yesterday. Between \$6000 and \$7000 was realized from the Schuman-Heink concert, and last night D. M. Linnard, manager of the Hotel Maryland, announced that that hotel was contrib-

uting \$5000 toward the fund, payable at the rate of \$1000 per year.

CITY BRIEFS.

Wendell P. Hodge, who for twenty-five years has been in the employ of the Santa Fe Railroad in Pasadena, as passenger and freight solicitor, has recently become custodian of the five-foot telescope of the California Observatory on Mt. Wilson. He is an amateur astronomer and president of the Pasadena Amateur Astronomical and Scientific Society.

Burton, Monday night entered the home of Roy Henderson, No. 216 South Marengo Avenue. Property totaling \$113 in value was taken. Entrance was made through a front window. A 16-gauge shotgun and case, a derby cap, and a pair of glasses were among the loot. The theft was reported to the police yesterday.

An ordinance introduced at yesterday's session of the Council, and voted on, fine residents approves that flagmen shall be stationed by the Santa Fe Railroad at the Glenarm, California and Center streets and the Madison Avenue crossings.

The Pasadena Young Men's Christian Association, established for "first aid to the injured" class, A session was held last night at the YMCA building. It was largely attended.

Dr. William Grenfell, the Labrador explorer now in the city, will speak to the students at Throop Polytechnic Institute tomorrow night.

The winter tourist season is now in full blast.

The winter tourist season is now in full blast.

The Massachusetts Boy Colony of Pasadena will banquet at the Young Men's Christian Association building at 4:30 o'clock next Monday night.

The Rev. Franklin C. Parker, who died last Saturday, will be held at 2 o'clock next Friday afternoon. The services will be at the Calvary Presbyterian Church in Pasadena.

Interment will be made in Mountain View Cemetery.

At auction, my entire stock of Japanese and Chinese goods, jewelry, Navajo rugs, furs and traps, etc., Today, 10:30 and 2:30. O. A. Bosley, 268 East Colorado street.

Hotel Vista del Arroyo, Pasadena. Artistic materials at Wadsworth's, Oak Grove Nicholson's, Beautiful stock of blue chinaware. Foothill property. Scenic La Canada.

GLENDORA'S MAYOR DIES.

First Citizen of Newly Organized City Succumbs to Attack of Heart Disease—Funeral Today.

GLENDORA, Feb. 6.—John J. Brubaker, Mayor of the city of Glendora and a prominent citrus fruit grower, passed away Monday at his residence on Vista Bonita avenue, after a long illness.

Mr. Brubaker came to California from Indiana, twenty years ago, finally locating in Glendora twelve years ago, where he purchased a citrus fruit ranch.

He was elected Mayor of the city when the town was incorporated last October, serving with distinction up to the hour of his last sickness.

He was born in the city of Indianapolis, Indiana, and was a member of the principles of Christianity and being a gentleman of broad views and lofty ideals, the people reposed implicit confidence in him, but here, too, instances kept him on the force.

With the exception of the police commissioners two of his members new charges were brought, one of which was his allowing a crazy prisoner to escape, with no effort to recapture him, and another that the death of a fugitive犯人 was accepted.

McCorde secured an attorney and demanded specific charges and a public hearing and this led to additional charges of neglect of duty.

As a result of the hearing the position of captain of police is vacant and there are no eligible on the civil service list. For the present the office will be filled by detail from the sheriff's office, who is responsible for investigating. McCorde will be asked to provide for one or two additional patrolmen, who are needed.

In announcing their decision the commissioners' resolution had been reached and made for the general good of the department.

Despite the efforts of the police force, the busy gang of burglars which were being operated here for two weeks, continued to operate, and more burglaries were reported last night and this morning. Jewelry and clothing are principally the loot of the burglars, although small change is also taken.

At 5 o'clock this morning Mrs. Clarence Carney, wife of a newspaper circulator, was awakened by the touch of some one, and only partially aroused, thought it was the cat, but when she felt the hand on her husband, addressed him. The reply disabused her and rising up in bed she threatened to scream unless the intruder departed. The fellow growled out threats of violence for Nedra and backed out of the room and then ran. Mrs. Carney could give no description of the man, except that he had a cloth of some kind over his face and carried some sort of a weapon.

All suspicious characters are being watched and rounded up and in addition to the regular police force, who are working twelve and fifteen hours, special patrols are on duty throughout the city.

Speculation is rife over an impending change in the personnel of the Board of Public Works. Recently, because of the friction in the water department, it has been decided that those who came to the city with the purchase of the two private water plants, the board decided to create a new office, that of general foreman, who will receive a salary of \$150 a month and have charge of all outside work of the department.

The office has been created, but no appointment has been made. It is thought that the new office will be for four years president of the Board of Public Works, will resign to the new plant, which is worth \$600 more, and that Dr. A. B. Austin, campaign manager for the charter party, will succeed him on the board of works, a position that pays \$1200 a year.

FOR SALE—TWO LARGE JACKS, BLACK WITH white points; quick bushes; will run antelope. Address C. N. STEVENS, 22 Cypress Street.

Funeral service will be held at the Brethren Church, Glendora, at 10 o'clock, Wednesday.

MOTTER FUNERAL HEADING.

Covina Man Who Died Sunday Is Laid Away—Caravan from the Dead Arrives.

COVINA, Feb. 6.—The funeral of Wm. H. Motter was held this afternoon at 2 o'clock, at the Covina Christian Church, Rev. D. F. Stafford officiating. Mr. Motter died Sunday evening in the Clara Barton Hospital, after an illness of two weeks, caused by a ruptured heart.

He was two days without food or water in the Arizona deserts. When asked whether he was bound, the old man said he was, but he had been walking the deserts. When asked whether he was bound, the old man said he was, but he had been walking the deserts. When asked whether he was bound, he said, "I can earn an honest living," he said. They camped on a vacant Covina lot, and were gone in the morning.

The city of Covina has just completed a new concrete building to be used as a home for the fire department and a jail. The building has four cells, which yawn for the evildoer. As yet no one has been incarcerated there.

NEWS BRIEFS.

Oliver Lamb and George Omsted, two men with the wandering in their blood, arrived in the city last night with wife and children, having made a trip with mules and wagons from Salt Lake City. Omsted said that they had traveled six thousand miles in wagons and had gone through the deserts of Colorado, Arizona, New Mexico and California, following roundabout trails and roads. They were two days without food or water in the Arizona deserts. When asked whether he was bound, the old man said he was, but he had been walking the deserts. When asked whether he was bound, he said, "I can earn an honest living," he said. They camped on a vacant Covina lot, and were gone in the morning.

RECALL OF CITY TRUSTEES THREATENED AT BEACH.

VENICE, Feb. 6.—It excited

many voters to the number of 176 or less make good their threats, the first recall election ever held here looks large on the horizon. It affects at least three of the City Trustees.

Last night that body, in defiance of a remonstrance signed by 170, a majority of whom are women property owners, granted a saloon license to Stitman &amp; Ashley. The argument in favor of the issuance of the license was that it was a step in the direction of breaking the whisky monopoly of the bond; but the remnants fail to see it in this light since simultaneously the Trustees denied a license to Norman Bisch. They

say that if the purpose was to throt-

the monopoly the other trustees should have issued it at the same time. The entire matter has created a roar that may be distinctly heard above the roar of the breakers of the sunset sea.

CITY SUES KINNEY.

Contending that the Rapids riding device is located upon city property, the city has instituted the attorney for a suit against the Alford Kinney Company, with a view to the removal of the property from the municipality. The Rapids was built on the strip of public park formerly occupied by the Baby Bank, and the possession of this slice of strand has been a subject of contest for many months.

A license to Norman Bisch. They

**Help Employed.**

In order that there shall be no further delay on the part of the City in bringing suit against the railway companies to force them to sell through tickets and check baggage to this beach, as promised, the City Council has authorized the City Attorney to employ an assistant in reviewing the acts of the Interstate Commerce Commission.

It is promised that the complaints will be ready to issue in a few days.

The suit is to be brought before the Interstate Commerce Commission, and an endeavor will be made to make all compensation.

The City Attorney was also instructed to inquire into the operation of the Air Line. When this old Southern Pacific steam road was converted into an electric line, the company did not do well with it, so by securing a franchise from the city, it was determined that the city holds title to the streets crossed, rather than having simply easements from the company for street purposes. It is probable that the company will be forced to secure the lower-priced beach service via the Air Line. Cars on this route come only to Palms on the western trip.

**Road Race Plans.**

Permit for the use of the Nevada Avenue course May 4 for the annual automobile road race has been granted to the Los Angeles Motor Car Association, and the local car committees are busy with plans to make this the most successful meet ever held in the West. It is among the probabilities that \$2000 of the municipal advertising fund may be used in the promotion of this event. It being held by the attorney, it would be proper to spend this fund in either improving the road or providing police protection for the course.

Civic bodies are agreeable to this plan, as they believe the road races are the best advertisement that could be secured by the city.

**Purchasing Committee.**

With a view to placing the responsibility direct and thereby making a stiffer economy possible, the Council has created a purchasing committee. Through this all supplies for the city will be purchased, the plan being that the heads of these several departments will be given powers needed to supply the city with what it needs.

The members of the new committee will be appointed by the attorney.

\$30 to \$45.00 Suits \$19.50

Here is economy for you; and economy without the sacrifice of style. It's the last of our Winter Suits. Suits that have been in the house less than eight weeks. But they are made of winter materials, in winter colors. In those particulars only do they differ from the advance spring suits.

Plain and fancy cheviots and novelty mixed suitings, also several very attractive models of velvet. Prices originally \$30, \$35, \$40.00 and \$45.00.

just three dozen in the lot. Choice \$19.50

\$19.50 Suits \$12.50

In this lot are not more than a dozen, including several small sized ones suitable for misses' or small women. Prices here range from \$19.50 to \$30.00. Choice \$12.50

### Ten Minutes With Mrs. Redding

When a woman has been looking for a perfect corset for years, ten minutes doesn't seem like much time to give to it, but it's enough for Mrs. Redding to show you that

**MODERN CORSETS**  
THE DEFENDER FRONT LACES

will do more toward bringing out all the improvable qualities of your figure than any corset you ever had.

Mrs. Redding will be with us but a few days longer.

Don't miss the opportunity.

*Similar Reports Show Its  
Broader Use.***News in Northern Waters  
Turning to Oil.****News of Interest from  
Fields of State.****Abraham E. Smith, American  
of Victoria, R. C. in a recent re-  
of the government headed "Cal-  
of superseeded coal," gives  
interesting facts as to the con-  
of ocean-going vessels into  
waters. Among other things he****There is every indication that Cal-  
is to permanently super-  
for fuel of steamers en-  
coast service between Inland  
of British Columbia. For  
the American steamer re-  
gion between Seattle and the  
of Victoria and Vancouver, has  
Columbia oil for fuel. How-  
it was not till a year ago that  
Canadian companies ventured to  
the experiment of converting  
steamers into oil burners. At  
the Princess May was  
from coal to oil burning, at  
a cost of nearly \$12,000. The ex-  
periment was successful, demon-  
strating that the field fuel was  
considerably cheaper, reducing ex-  
pense of at least twelve firemen, but  
that it more quickly responded  
demands for increased heat, and  
burned more cleanly.****The spring the smaller steamer  
the Canadian Pacific Railway  
dropped from Victoria to Seattle.  
The Princess Charlotte  
dropped from a coal to an oil  
at the yards in Victoria, and  
though it proved a long and expen-  
sive venture, the result has  
been entirely satisfactory, as the  
boat gained nearly one knot in  
speed, and has operated at less expense  
than ever before, and made the  
trip from Victoria, via  
Seattle to return with  
a majority of an express train.****The new steamer, the Princess  
arrived a few weeks  
ago, having been built, thus  
using the third Canadian Pacific  
boat to use oil for fuel. On Jan-  
uary 1 another, the fourth, of the  
Princesses, the Adelais, a  
boat of the triangular run and  
is Seattle, there to be converted  
into an oil burner at the Moran  
shipyard, at a cost of \$10,-****The Grand Trunk Pacific Steam-  
Company runs two fine steamers,  
Prince Rupert and the Prince  
each week from Seattle via  
Vancouver to Prince Rupert  
and return. Conversion of  
the latter is now well under way at  
the British Columbia  
Railyards at Esquimalt, B. C.  
Completed, it will replace the  
latter, and the former will then  
be made an oil burner. It is expected a large  
number of coast boats will be  
converted when the anticipated great  
expansion of the American steam-  
ship service of the Alaska Steamship  
Company, at the yards of the  
Seattle Construction Company,  
will be completed. The  
steamship Mariposa, re-  
cently purchased by the Alaska  
Steamship Company, for its  
Alaska service, is also to be  
converted into an oil burner, and the  
M. F. Plant of the Alaska  
Steamship Company is now  
making similar alterations.****For January 16, mention was  
made of the proposed conversion  
of the Alaska vessels of the  
Steamship Company for the  
of its line between San Fran-  
and Australia, via Hawaii.  
The Alaska  
Company, for its San  
Alaska service, is also to be  
converted into an oil burner, and the  
M. F. Plant of the Alaska  
Steamship Company is now  
making similar alterations.****For January 16, mention was

## Los Angeles Daily Times

EVENING MORNING IN THE YEAR.  
Daily, Sunday and 40-Page Illustrated Weekly.  
Daily. Founded Dec. 1, 1881. 11th Year.

BUSINESS OFFICE AND EDITORIAL ROOMS,  
511-512 South Spring Street.

Los Angeles (Loco Ahng-hayl-ais.)

Entered at the Postoffice as mail matter of Class II.

GOOD GRAZING.

We will venture to say that the thousand Elk who are here from Salt Lake with many friends have not discovered that alfalfa is either scarce or high.

TWO OF A KIND.

Former Governor Hoch of Kansas thinks that Taft and Bryan will be the opposing candidates in the coming election. We wouldn't be surprised if there is not a man at Lincoln, Neb., who thinks the same way.

PROBABLY A MISTAKE.

With much grief we read that the decision of an umpire in a baseball game at Oxnard was questioned by the losing team and its fans. This is probably an exaggeration and the newspaper correspondents guilty of the libel will, no doubt, come forward with abject apologies at once.

IMPORTANT.

The opinion of a Fresno judge that a drunken chauffeur may be held as a felon in case of accident is most important. It is bad enough to have the pedestrian in crowded cities at the mercy of the careful driver, and the punishment of the criminally careless and of the inebriate cannot be too severe.

THE T. R. OF MEXICO.

Emilio Vasquez Gomez says he is willing to accept the Presidency of Mexico if it comes his way. In this respect Senor Gomez bears a striking resemblance to the attitude which a certain other great man bears toward another country in which is located the town of Oyster Bay. For the sake of peace we refrain from mentioning names.

THEIR ONE CHANCE.

A California man thinks he belongs to a large fortune allotted to have been locked in the vaults of the Bank of England for more than a century. It is not difficult for Americans of good disposition to cultivate an affinity for large fortunes supposed to have been left by ancestors. Some of these fortunes are real and the countries in which they lie in trust are much too tardy in surrendering them to the rightful heirs. We suggest that some of the many heirs to lost European fortunes get the United States government to appoint a bureau of heredity.

TWENTY MILLIONS IN FOUR HOURS.

Since the election of Ralph as Mayor and the expulsion from politics of the McCarthy gang San Francisco has gone forward by leaps and bounds. On the 26th of January at noon subscription lists for the \$20,000,000 bond offering of the Pacific Gas and Electric Company of San Francisco were offered in that city. Formal tenders by circular letter had not been issued. By the close of banking hours on the same day the entire offering had been taken and largely over-subscribed, so that it became necessary to pro rate allotments among the larger applicants.

THE LUCKY ONES.

It is rather hard for the Dowager Empress of China to give up her highly artificial position, and the retired Premier of that land is likely to remain a statesman out of a job. The two lucky fellows in the new regime are the dethroned infant Emperor and the baby son of the Imperial Valley farmer. Under an era of prosperity and republicanism in China the baby Emperor, by disguising himself, may grow up into a useful and happy citizen. When China begins to produce with its millions of laborers something more than Manchu taxes and pensions the Imperial Valley farmer's baby may grow up into a man who will dare to produce millions of bales of cotton with the pleasant certainty of a fathomless market.

ADVANCE IN COST OF OIL.

As was predicted by The Times, the cost of producing the thirty-three companies into which the Standard Oil Company was divided, as compared with the expenses of the compact organization under the old regime, has resulted in an advance of about 10 per cent. in the price of gasoline and refined petroleum. The "busting" of the Standard Oil trust has been hailed as a great victory for the people. So far as one can discern the Standard refineries all over the country are turning out about the same quantity of refined oil they did before the "busting" of the trust. The people living in the country in villages too small to support a gas factory or an electric light plant are paying 10 per cent. more for their light and the owners of autos are paying 10 per cent. more for their gasoline. Trust "busting" is a luxury, but we must have it.

THE WRONG VIEW.

The Russian papers have been thinking some and writing much about the manner in which the United States declared for an abrogation of the treaty existing between the two countries. The gist of their comment is that this country has no present excuse for ending a treaty which served very well for nearly eighty years. They charge America with being a financial oligarchy subserved by the judiciary and journalism of the country, and they attribute the present unfavorable action entirely to the business success of a handful of Jewish capitalists. Their mistake lies chiefly in the fact that they do not allow for the tens of thousands of persecuted Jews who have arrived in America from Russia during the past few years and who, through their intelligent appeals, have been able to put the grievance of the American Jew as a Russian traveler upon a broadly humanitarian basis.

## THE DESCRIPTION OF LA FOLLETTE.

Senator La Follette is an impractical man obsessed with an iridescent dream of political altruism when "none will be for a party and all will be for the state." He has been used, and very badly used, by a many crew of treacherous job-hunters who are without conscience, without loyalty and without either moral principles or moral perceptions. After persuading their leader—or, to speak more accurately, their victim, for Roosevelt, and not the Wisconsin Senator, is their leader—to engage in a canvass through the North and Middle West, a canvass that made him many friends but which has exhausted him physically, they now, without apparent reason, desert him and are making an attempt to turn his strength over to Roosevelt; and Roosevelt, who is mad with ambition, makes no concealment of his purpose to avail himself of the La Follette strength, if he can get it.

If he can get it? But he cannot get it. The piratical crew who are engaged in the work consists of Gifford Pinchot, the discredited, his brother Amos who performs the dirtier work, Brandeis who made a vain attempt to bolster the Dick-Dick letter fraud, Charles R. Crane who was appointed Minister to China by President Taft and dismissed for talking too much before he could buy a steamer ticket for Hongkong, Prof. Merriam, Walter Rogers and W. L. Houser, the manager of La Follette's campaign. They have shamelessly abandoned La Follette and propose to transfer his strength to Roosevelt. This gang, while professing as "progressives," a devotion to pure ideals in politics, are as unscrupulous as any professional caucus manipulators that ever dominated the machine politics which they pretend to antagonize. Machine politics, undesirable as they may be, have at least the virtue of loyalty to the man whose cause they espouse.

THE TIMES OF MEXICO.

The Times does not believe that even the most radical of the California progressives will consent to follow these vermin of politics into the camp of Roosevelt. California insurgents may be at times misled by demagogues, but they are not cowards, they are not treacherous, they are not fools and they will not be led by the nose like so many asses. The California delegates to the National Republican Convention, whenever they may support, will not be found trailing after that mass of malice, egotism and treachery whose name is Gifford Pinchot.

GOMPERS MUST GO.

Inspired by Sam Gompers, union labor's archdeacon, the conference of executive officers of the International Trade Unions, with headquarters in Indianapolis, issued a manifesto on May 10, 1911, as to self-convicted brother James B. McNamara as his chief lieutenant. Both were then and still are murderers of the deepest dye, in spite of Gompers' world-flung about, "They are innocent." Gompers, like "My Lady, doth protest too much," and Gompers, also like "My Lady," must go. The McNamaras have gone.

RESTLING WITH A BEAR.

Charles Yellincky, meat packer, height six feet two inches, weight 250 pounds, noticing the offered premium of \$50, concluded to try it and he divested himself of his coat and vest and stepped into the arena. He was not one of the corps of performers, but, in the presence of a hundred spectators, the proprietor of the bear could not decently decline to allow the stranger and the bear to have it out. They had it out. The training of the bear had not prepared it for the novel tactics of its opponent and, after being twice tripped up and thrown into the sawdust by Yellincky, Bruin skidded for his kennel, from which no call of duty could persuade him to emerge.

To the great American public, which, in its final conclusion, is always right: We know John J. McNamara. He is an industrious [very much so in the dynamiting business—Editor Times], reliable, palatable and courteous gentleman. He is a graduate of an Indianapolis law school, thus making manifest his ambition to tread the high road to higher places of activity. (This high-minded sentence reads very much as if Gompers wrote it.—Editor Times.)

The manifesto saddles the whole McNamara case on union labor, decent and otherwise, in the following words:

"We shall devote our energies to the raising of a sufficient defense fund. We know our business. The trade unions of this country have built up that movement to which we understand its aims and aspirations."

Then the manifesto deliberately fixes the whole case and care of the McNamara murderers on union labor of this and other countries by the following official signatures:

The conference of executive officers of the International Trade Unions, with headquarters in Indianapolis. James M. Lynch, president; Frank J. Duffy, secretary.

"Approved: James M. Lynch, president International Typographical Union; Hugo Hill, second vice-president International Typographical Union; W. C. Johnson, treasurer International Typographical Union; F. X. Nosenchik, president Journeyman Barbers' International Union of America; Jacob Fischer, secretary-treasurer Journeyman Barbers' International Union of America; William D. Huber, general president United Brotherhood of Carpenters and Joiners of America; Frank Duffy, general secretary United Brotherhood of Carpenters and Joiners of America; Thomas Neale, president International Brotherhood of Teamsters, Carpenters and Joiners of America; Daniel J. Tobin, president International Brotherhood of Teamsters, Chauffeurs, Stablemen and Helpers; Thomas L. Hughes, secretary-treasurer International Brotherhood of Teamsters, Chauffeurs, Stablemen and Helpers; John P. White, president of United Mine Workers of America, International Union; Frank J. Hayes, vice-president of United Mine Workers of America, International Union; Edwin F. Perry, secretary-treasurer of United Mine Workers of America, International Union; William J. Bowen, president of Bricklayers, Masons and Plasterers' International Union of America; Thomas R. Prece, first vice-president of International Union of America; John F. McNamara, editor and managing Brotherhood of Locomotive Firemen and Engineers' Magazine; Robert Glickson, president International Brotherhood of Bookbinders; James W. Daugherty, secretary-treasurer International Brotherhood of Bookbinders."

It is noticeable that this manifesto does not bear the signature of a single officer of the Structural Ironworkers' Union of America, headquarters Indianapolis, of which the McNamara were members in good

## On the Road to Washington.

standing and of which the self-convicted John J. McNamara was secretary-treasurer, in full charge of the dynamiting bureau, with self-convicted brother James B. McNamara as his chief lieutenant. Both were then and still are murderers of the deepest dye, in spite of Gompers' world-flung about, "They are innocent." Gompers, like "My Lady, doth protest too much," and Gompers, also like "My Lady," must go. The McNamaras have gone.

have for some time ceased to ring with it to the great delight of Heyburn of Idaho, whose betrothed he was.

As for Teddy the Terrible—well, he is out of it. Command him for the good he has done and let him pass, for, as Pope says, "We ought in humanity no more to despise a man for the misfortunes of the mind than for those of the body when they are such as he cannot help."

## UNCLE WALT.

The Poet Philosopher.

The years roll on, so swift, so swift! Old age on us advances, and we into its shadows drift with mournful backward glances. It seems but yesterday that we who falter now, were playing on the sunlit sand, or lay the woodland carpet. The days went on by on heavy wing, slow then fast. Life's long stages; for childhood seemed an endless thing of cycles and of ages. Thus time to childhood still appears a crippled thing on crutches; but, childhood past, the busy years throw on the high speed clutches. Our minds intent on plan or scheme, on triumph or disaster, we do not notice the years that steam by faster and still faster. And then some day the truth comes home—the truth that man is man, shiver; the scattered hairs upon his head, the pink pains in his liver, the creaking of his shoulderblades, and many another token, tell him, while his valor fades, that he is old and broken! It is a thing deplorable tears that in our fierce endeavor we do not prize the speedy years until they're gone forever.

WALT MASON.

[Copyright, 1912, by George Matthew Adams.]

## "SPOONERISM."

Involuntary Inversion of Words Used Occasionally by Almost Everybody. Some Peculiar Instances.

[The Strand:] A "Spoonerism" is the name given in England to one of those involuntary inversions of words that occasionally enlivens conversation. As for instance, when the returned traveler tells of "rambling up the scalps while in Switzerland," and knows that he means "rambling up the Alps" but has simply perpetrated a "Spoonerism," so called after a canon of New College, Oxford, who achieved a long and exhilarating list of these slips.

Some of the more famous "Spoonerisms" are received in the form of a narrative of a returning visitor who on reaching his port of call, left his "bag and a bug" with a porter while he went to the refreshment room for "a bath of milk and a glass bun."

During the course of an address on "Kindness to Animals" to the local branch of the Girls' Friendly Society he remarked that "In Piedmont, where the sheep were so cherished, a flock would willingly follow a shoving leopard." The meeting in question was very sparsely attended, most of the former in the schoolroom being unoccupied, the vicar attending, and the fact that it had been "raining with papa" ever since noon, and added that, as it was "heavy work speaking to empty wenchies," they would close by singing the well-known hymn, "From Iceland's Greasy Mountain."

The tale of his ecclesiastical mishap is long. One chilly Sunday morning he electrified his hearers by informing them in the course of his sermon, that he felt a "half-warmed fish" rising in his bosom. To a lady whom he had in possession of his soul in the college chapel he gently observed: "Excuse me, madam, you are occupying my heart."

Indiana has very solidly and very emphatically repudiated a moucher named Lee, who went around Washington last month proclaiming in every saloon on Pennsylvania avenue that his State was hostile to Taft. At the election in Indiana last week every member of the Republican State Committee in thirteen Congressional districts, upon the direct issue of Taft or anti-Taft, was elected for Taft.

President Taft's recent speeches in New York have solidified in his behalf all of the State south of the Harlem River, while the Republican press of the interior as far west as Buffalo and as far north as Lake Champlain are unreservedly in favor of his nomination. The Executive Committee of the Republican County Committee of New York passed unanimously resolutions favoring his renomination, and the General Republican Committee of Kings County, Brooklyn, spontaneously supported a resolution to the same effect.

The La Follette boom has collapsed utterly, even in its northwestern home. It burst like an overinflated toy balloon and its object has abandoned his stumping tour on the plea that it is necessary for him to conserve his voice for use in the Senate chamber, the vaulted aisles of which

Latest in Democratic Harmony. [San Francisco Chronicle:] "Bryan ought to be knocked into a cocked hat."—Woodrow Wilson.

"Wilson is a schoolmaster rather than a statesman."—Harry Watterson.

"Mr. Morgan is a nice old gentleman."—Woodrow Wilson.

New winter styles in harmony in the Democratic camp.

## A CIVIC CENTER.

How Best to Beautify Los Angeles.

BY ROSE L. ELLERSON.

With all its great advantages and with its truly magnificent setting Los Angeles is very far from approaching the beauty and attractiveness within its possibilities. In fact, we may as well admit that Los Angeles, beyond its climate and surrounding attractions, has little to offer the traveler or tourist. Our business streets have not the distinctiveness that might easily have been gained had consideration been given to the laying out of the streets, the placing of open spaces and the adoption of a more characteristic architecture. The only public buildings which are at all noteworthy, our Courthouse and Federal building, lose their attractiveness because of their surroundings. Yet these buildings, with the Hall of Justice, form the nucleus civic center which may still be made a noble and well-balanced central group for the business of the city and county of Los Angeles.

The building of the City Hall upon the Temple block site is the next step necessary in developing the heart of the city. This is practically already provided for. On two different occasions a large majority of the citizens have voted a large sum of money for the new building on the site purchased for it. The City Council has authorized the sale of the old site for not less than \$800,000. Good judges say that the present ground should bring \$750,000. This money, with an additional \$300,000, which would be only part of the sale price of the lot owned by the city at Fifth and Olive, would buy the temporary structures, which shall give ample space for all city departments for the present.

Sixty thousand scholars in the semester of the Los Angeles schools number for many a candidate for place in the lot. What an army that is!

There are quite a number of young men in Los Angeles who never complain of crowding in an auto.

Between politics and prosperity the voters prefer the first-named, but the people have the people with them.

On account of the dry weather the beef is soaring, recalling the old adage about the cow that jumped over the moon.

The expression, "familiarity breeds contempt," probably originated in a place where they knew each other well.

The Wright brothers claim to have invented a fool-proof aeroplane, but the needs of the hour is a fool-proof mobile.

In Tacoma where the recall is on, there is some talk of making the Mayor thirty days, with the aid of good advice.

Sixty thousand scholars in the semester of the Los Angeles schools number for many a candidate for place in the lot. What an army that is!

In the meantime what has Tucson to say about a recent in our Presidential politics? Tucson listening for Ryan to say something.

Col. Bryan wants it known that before the new government in China, it first time in his illustrious career colonel has not been again the general.

If the political mortality of the candidates for the Presidency continues it may be in order to suggest Edison furnish one of his cameras.

The City Council will be asked to tribute \$10,000 to the entertainment of G.A.R. National Encampment in Los Angeles in September. It is worth it is likely to cost.

The peace treaties are to be decided in the open Senate. This is well. Let people hear what the objectives is in national peace, from an American point of view, if there be such.

Under the new arrangement just now by the War Department there will be between 12,000 and 15,000 troops station Hawaii. The islands are recognized as strategic point in the Pacific and San Juan will be prepared for the eventual.

By the provisions of the will of R. T. Crane of Chicago \$1,000,000 was found a home and beneficial fund for dependent widows and women who have deserted by their husbands. His theory that higher education was therefore the best charity to society in general may be imagined.

The slope of the land lends itself to scenic effects of impressive outlooks and opportunities. The city and county already own extensive holdings in this immediate vicinity. The county, by its recent purchase of property fronting on Temple and New High, now owns a block of land bounded by Temple, Buena Vista, New High, the north line being probably an extension of California through to New High. The Los Angeles High School occupies a commanding site in this immediate vicinity. At present the grounds are disfigured by emergency buildings, but with the addition of suitable buildings, this will be the fine school property in the city and county.

# SOCIETY

Miss Elizabeth Coley.

One of the maids at the Catherwood-Canterbury wedding last evening.

**S**AMUEL BROWN THOMAS, Lieutenant-Commander, U.S.N., who was taken suddenly ill with pneumonia, is much improved, and his wedding to Miss Grace Mellus will be quietly solemnized in the presence of relatives at the California Club this evening. Bishop Johnson officiating.

The ceremony is to have been conducted in St. John's Church in the presence of many guests, but the serious condition of Lieutenant-Commander Thomas necessitated the quiet service which will be held in the reception room of the club. Immediately afterward the groom will be taken to his room, where, under the orders of Dr. E. A. Bryant, he will remain for two weeks, at which time he and his bride will return to Mare Island, where he has prepared a beautiful home.

#### Catherwood Weds.

At twilight at the home of her parents, Dr. and Mrs. Thomas, Catherwood, Miss Emily Catherwood, the bride of Charles Milton Canterbury of Redlands. The bride's grandfather, Rev. Charles de Wolf, performed the ceremony in the sun parlor before an altar of Jonquils, narcissus and sweet peas.

The wedding gown was a one-piece broadcloth suit, with hat to match. A shower of bride roses formed the bouquet. The six maids, the Misses Dore Rogers, Virginia, Catherwood, Laura Canterbury, Maryle Biba, Elizabeth Collier and Lillian Catherwood were attired alike in white marquisette over white satin with French caps of gold, adorned with pink rosebuds. They carried arm bouquets of pink peacock feathers prepared by Roger Palmer of Potomac.

The home was done in a gold-and-pink color scheme, pink puffs being combined artistically with narcissus and jonquils. A small light was effected with pink candles, which burned from brass candleabra.

Miss Catherwood, before coming to this city, was a student at Pillsbury Academy, near Minneapolis, and Canterbury is a Berkeley man and a member of the Phi Kappa Sigma Fraternity.

Upon their return from a trip, Mr. and Mrs. Canterbury will make their home at No. 225 West Adams street.

#### Box Party at Belasco.

Miss Henrietta Brown, assisted by her mother, Mrs. Charles H. Brown, gave a box party recently at the Belasco in honor of Miss Helen Ward of Des Moines, Misses Mabel and Hattie Clark of Wayne, Neb., Mrs. Charles Ward of Pasadena, Mrs. C. W. Norton of Vernon and Mrs. T. Macmillan of Boston. Tea at the Plaza followed.

#### From San Francisco.

The Misses Bertha and Ellen Klein-schmidt of San Francisco are spending a few months in this city at the Albermarle apartments.

#### Large Reception.

Mrs. Robert D. Grant and daughter, Miss Ruth Grant, No. 105 Alameda street, will be entertained tomorrow afternoon to be given at the Merrill Clubhouse on South Figueroa street. About 100 guests are expected and they will be received by Mrs. Percy D. McCabe, Mrs. Evelyn Hart, Mrs. John F. Van Duzen, Miss Helen Lane, Miss Georgia Johnson, Miss Gladys Pollard, Miss Myrtle McCabe and Miss Audrey Vaughn.

#### Miss Jungquist Hostess.

Miss Beulah Jungquist of No. 594 Franklin street, will entertain tomorrow afternoon with a musical tea the home having been converted into a garden of bloom. The dining table was enlivened with a centerpiece of white and pink sweet peas. Miss Ida Weber, Miss Pearl Kardell, Miss Reed

## Beauty of Hair and Skin Destroyed

(Dr. de Werthe in The Graphic.) "Washing the head makes the hair brittle, splits it, and causes streaky color. Dry shampooing with ether keeps the hair fluffy, clean and bright. Put a cupful of corn meal in a fruit jar and an original package of therox and shake well. Sprinkle a spoonful on the head and brush through the hair once a week. This treatment makes hair grow long and abundant."

"Fine complexions are destroyed by powders that clog the pores and prevent oil that destroys skin. A genuine complexion beautifier can be made at home by dissolving an original package of mayonaise in half a pint of witch hazel. Gently rub this solution over face, neck and arms in the morning and it will 'hold' all day. It will not rub off or show like powder and makes the skin soft, satiny and pliable."

"If you have chaps or cold sores or rough, red skin, apply Mother's Salve. It is antiseptic and healing, and is a splendid remedy for pimples, eczema, sores and skin afflictions."

Viv Hunter, Miss Muriel Howe, Miss Mildred Kemp, Miss Hazel Kemp, Miss Opal Strader and Miss Peggy Franklin.

#### Early Morning Wedding.

The marriage of Miss Marie Agnes Schell, daughter of Mr. and Mrs. Urban Schell of Piqua, Ohio, to Lt. Alvin A. Johnson, of the Signal Corps, took place Saturday morning in the Holy Cross Church. After a short honeymoon the young couple will make their home in this city.

In North. Mrs. W. C. Dillingham is visiting friends in San Francisco.

#### Invitations Out.

The Western School for Girls has issued invitations for a dancing party to be given Thursday evening, February 15, at Kramer's.

#### Pasadena Tea Party.

Miss Karin, Lieutenant-Townsend will be hostess Sunday afternoon at a tea party at the Hotel Pasadena. Guests will be received from 4 until 6 o'clock.

#### Club Party.

John M. Steavely of No. 146 West Forty-third place entertained recently members of the Twenty-third Street White Club. There were present Mr. and Mrs. Frank Wright, Mr. and Mrs. Arthur Harris, Mr. and Mrs. Charles Geitz, Mr. and Mrs. John Eyre, Mr. and Mrs. Henry Howland, Mr. and Mrs. William Othmer, Mr. and Mrs. Harry Marshall, Mr. and Mrs. Wayne McKinney and Mrs. Anna Downing. Prizes were awarded to Mrs. Harris, Mr. Othmer, Mrs. Eyer and Mr. Harris.

**Golden Wedding Anniversary.** Mr. and Mrs. J. A. Cunningham of No. 211 West Avenue #5 will be at home informally to their friends on Saturday afternoon this evening, February 10, from 4 to 6 o'clock, the date being the anniversary of their wedding, which took place in North Brookfield, Massachusetts, year ago.

#### College Club Affair.

The wedding Saturday of Mrs. Lola Chamberlain of this city and Earl Chapman, a young man from San Diego, is announced today. The ceremony was solemnized at the home of Mrs. Anne S. Zahn of No. 1235 Valencia street.

#### Luncheon Enjoyable.

A prettily-appointed luncheon was given Saturday by Miss Anesta Franklin of No. 1942 Elendale Place, in the dining room of the home of Mr. and Mrs. George Terrell and Miss Muriel Howe, winter graduates of the Polytechnic High School. The place cards and favors were carried out in the class colors, and the menu, which was delicious, was later enjoyed by Miss Edna Kasey, Miss Faye Jones, Miss Mal-

#### THROUGHS HIS BANK.

Will Wilson was robbed of \$125 in cash and a check for \$25 early yesterday morning in a room in the Royal House on First street. He suspects a Norwegian, Scotchman and Swede with whom he drank the day before. When he was awakened by hearing a man in his room, the stranger had just rifled his trousers, which contained the money and check.

#### COFFEE CLUB AFFAIR.

The Los Angeles Bryan Club will meet Saturday afternoon at the home of the president, Miss Mary H. Lewis, 521 South Broadway, between 4 and 5 o'clock. Miss Lewis will be assisted in entertaining by her sister, Miss Alice G. Lewis of Tokio, Japan, who will give an informal talk on "Artistic Coffee or Japan." There will be a discussion with various objects brought from Nippon. All former students or instructors of Bryan Mawr are cordially invited to the meeting.

#### LUNCHEON ENJOYABLE.

The wedding Saturday of Mrs. Lola Chamberlain of this city and Earl Chapman, a young man from San

Diego, is announced today. The ceremony was solemnized at the home of Mrs. Anne S. Zahn of No. 1235 Valencia street.

## Crack English Team Downed by Santa Barbara.

A Crucial Moment on the Polo Field with the Goal Just A head. Elmer Boeske, Jr., of the Santa Barbara team (left) finishing furious side by side charge against Viscount Gower of the English team. The American is closing up on the Englishman and this play succeeded in saving his goal from being crossed. In the rear center is Dr. Boeske, who was hacking his son in his superb effort to save a score. The upper pictures are Lord Tweedmouth on the left and Lord Herbert on the right, who played superb polo and went gamely down to defeat.

On the Links.

### RIVERSIDE IS WINNER.

Defeats Annandale in Golf Tournament.

Losers Were Invincible Up To Now.

Many of Matches Were Close All Through.

### DEL HOWARD IS LATEST HOLDOUT.

"I won't play baseball at all this year if I have to go to Louisville. I am in the automobile business and according to the understanding I had I was to be a free agent after last year."

This was the direct statement yesterday of Del Howard, brother of Ivan Howard and first baseman of the Louisville team and a .302 hitter last year. Del is holding out, for he took the contract sent him and threw it in the waste basket. He will play in any city but Louisville.

Hilligan stopped his drive shamelessly at the tenth, but landed on the green with good fortune. Whether his win was really due to his absence from smoking the day before is a moot question, but his sacrifice was feelingly appreciated by the team.

G. Pattee won his match against H. R. Williams by 3 to 2, keeping his advantage of 1 up at the turn. Mr. Pattee had been feeling doubtful about the team's chances to day, but recovered his optimism at play advanced.

The hardest fought match was that between R. D. Osburn and McLaughlin, which was carried to the nineteenth hole, par 4, which Osburn achieved brilliantly in 3, thus gaining the victory for Riverside by 1 up. He was 2 down at the turn, but made a splendid recovery. They were all even at the eighth green, which was halved, and from thence on the gallant wild shots of joy la baseball greeted his final brilliant play. Osburn was wearing his old clothes and his friendly pipe, while his opponent looked immaculate in gray knickerbockers and a noisy checked cap.

LADIES IN TEARS.

Enough to unnerve anyone. "Why didn't he wear his new football suit?" said the ladies tearfully. "It is so becoming?" But he won, in spite of its use.

Tom French and W. Brand won their matches. French played Dr. Girdlestone.

### WHIFFS FROM THE OLD SPORT PIPE

### TITLED ENGLISHMEN WERE PLAYED OFF THEIR FEET.

Lord Herbert and Viscount Gower Were Both Thrown from Their Polo Ponies During the Game but Escaped With Slight Injuries—Triumph of Mayor Boeske's Santa Barbara Team.

BY R. A. WYNNE.

WHEN the Santa Barbara polo team yesterday arose in its might and smote the English team hip and thigh at Tournament Park in Pasadena, the entire "dope" of the tournament now under way was upset.

By the one-sided score of 7 to 2½ goals the team from the Channel City carried the crack English players off their feet and yet the score does not tell the story.

It was the second match for the Hogan cup. The Canadian team had likewise upset all calculations when it defeated the Pasadena team last Saturday and the English team was slated to defeat, with but slight exertion, the Santa Barbara aggregation.

Now it leaves the Canadian and Santa Barbara teams to fight it out at the finals and this match was not expected.

#### SENSATIONAL PLAY.

Yesterday's game was replete with sensational playing. The English team was able to outrun them time and again.

Maj. Colin George Ross, captain of the Canadian team, acted as referee throughout the game. John Hogan of the Coronado team was timer and Thomas Weise, Jr., of the Pasadena team was scorer.

The field was in perfect condition and a fine crowd sat in the stands and threw into the field it was realized that a good game was to be played.

#### THE RIVALS.

Matched against each other and wonderfully alike in temperament and physical make-up were Elmer Boeske, the six foot, three inches tall son of Dr. Boeske and the Viscount Gower, who is the same height.

The two young men are of the same age, each being 22 years old. They are both slender and appear extremely boyish. The one is the second son of the Duke of Sutherland, which includes the most aristocratic line in England, and the other is the son of Dr. and Mrs. Boeske of Santa Barbara. These two young men are both wonderful horsemen and accurate hitters.

Time and again they matched their prowess against each other and for an hour or more the outcome was in doubt.

The wonderful accuracy of Boeske, however, won the admiration of the spectators and at the end of the game the young man had rolled up a big lead over his title rival.

Another match of prowess was en-acted between Boeske and Edward Tweedmouth, the hard-riding and accurate player of the Santa Barbara team, and Lord Tweedmouth. These two gentlemen played back and forth the clashes between them were furious. Both ride like centaurs and know every department of the game.

#### RIDERS FELL.

The wonderful horse which Dr. Boeske rode "Blue Knot" really threw the balance of playing in his rider's favor. The speed of this horse was phenomenal. Time and again when a long shot had sent the white bamboo ball flying down the field clear

## College Baseball Season Opens Up Lively.

Batter Up.

### COLLEGE BALL SEASON OPENS.

Oxy Tigers Aim to Correct Batting Eye.

Expect to Make Pomona and U.S.C. Hustle.

Close Games Assured in the Near Future

Occidental baseball enthusiasts got off with a flying start yesterday afternoon when they turned out for spring practice on the diamond. As it was the first day of the new semester a large showing was not expected and the coach was surprised to see twenty young huskies show up in uniform at 2 p.m.

The Tigers are determined to come back this year in the line of baseball. Last year it was admitted that they had it on all competitors in the matter of individual ball, but they didn't mind the elusive sphere at the right time and the result was that U.S.C. galloped away with the series in straight games.

Pomona proved to be a better match for the Tigers and were forced to play three games before closing up the series. This year the Tigers are going to take no chances on their weak batting eyes, and started off first crack out of the box to claim the ball around in hitting practice.

The men showed up on the field at 2 o'clock sharp and under the eye of Coach Pipal and Capt. Ned Bishop they started throwing the ball around. The main work of the afternoon, however, was divided into two sections because of the size of the squad.

One division started around at the right time and took care of the practice at catching dice and stopping a few gentle grounders. The practice lasted a couple of hours and would have lasted longer if the wishes of the players had been taken into account.

The other certainly had a wealth of material this year, their only possible weak spot being the pitcher's position and that through the lack of experience of the entire team. Pattersen was good in streaks but had a tendency to blow up at the crucial moment. This year the Tigers will be represented in the box by Alvin Stewart, who has been recruited from Alameda. This bird has lots of speed and great curves and if he is able to control all his will be a win. He has had considerable experience and should be a good pitcher.

Orville Wieden will catch this year and will be assisted by McDonald. Wieden was inexperienced last year and is showing much improved form in this season. He was a star in the pole vault and is the premier width of the big stick.

Capt. Bishop will hold down first base and will be seconded by Andy Townsend. Clegg, who is the star, rep. "Bish" will have good enough competition for his place. Duffy Seay has first call on the keynotes job, having been a star performer at that position since the first year.

Harry Kirkpatrick seems to have the short field position cinched on account of his decided ability and his fine whip. Harry was showing up in his hand and this injury stuck with him all through the season. He covers a huge amount of territory and is a fairly good stickler.

Wade Wride, last year's champion, is still on the team and probably will hold down the difficult corner, though he will have some mighty stiff competition from Horace Wride, who is the best batter and a solid fielder. Last year in the championship game with Downey High he got one of the four hits gathered from Wile's defense. Wride will have first and the utility man's position from his experience.

In the outfield the Tigers will have a bunch of speedy pull-gatherers to pick from. Freddie Bell promises to lead the family repartee for speed and phonetic catches. Whinie Blount is another experienced gardener, as are Lawyer, Yakeley, Hall and any number of others.

High school boys seem to have two good men for every position and the result of the strenuous competition for places is sure to be some close half-tossing. The coach and captain are highly pleased over the number and quality of the recruits who showed up last night and all predict that things are liable to hum in the way of baseball this year.

### NEW BALL PUZZLE BROTHERS CONNOLLY.

(BY A. P. NIGHT WIRE TO THE TIMES) NEW YORK, Feb. 4.—The rules of baseball will be a bone of contention when the major league committees meet here next week.

The chief argument which has arisen thus far between Chairman Ward of the National League and Connolly of the American League is about a play which occurred in Boston last summer.

With one out and a runner on first, the batsman hit for a home run. The ball was thrown to the catcher, who touched out the man who had evidently scored from first base. The umpire ruled that the runner on the ground that the runner from first had failed to touch second base and that the batsman was out for following the runner who had failed to touch one of the bases.

Mr. Ward and President Lynch decided that the umpire was right in declaring both runners out. Mr. Connolly says the batsman should be allowed to score, for he was in no way responsible for the action of the runner ahead of him in not touching the bases in order.

In Limelight.

### MANUAL ARTS ATHLETES BUSY.

FIRST REAL PRACTICE SLATED TO START THIS WEEK.

Lake and Stewart Doing Fine Work in the Pole Vault—Succesful Showing Well in Broad Jump and Hurdles—Promising Schedule Is Arranged for Eight Weeks.

Manager Kleinberger of Manual Arts High School has just completed his track and field schedule for the season and has practically all the schools, in and near the city, slated for meets. The first oval work is to commence this week when the inter-class meet will be held, and on Saturday, Feb. 11, Arthur Ryder and his followers are to meet with the cardinal athletes from U.S.C.

By a special arrangement with Warren Bovard the Manual team has been using the U.S.C. track for training the past week, while their own is being put in condition by the workmen. The one-fourth-mile track on the Manual Arts field, which was built last year, has been spoiled by a wind, which has placed next to it a small, which is being used by the athletic department and the students.

The team will be a better match for the Tigers and were forced to play three games before closing up the series. This year the Tigers are going to take no chances on their weak batting eyes, and started off first crack out of the box to claim the ball around in hitting practice.

The men showed up on the field at 2 o'clock sharp and under the eye of Coach Pipal and Capt. Ned Bishop they started throwing the ball around. The main work of the afternoon, however, was divided into two sections because of the size of the squad.

One division started around at the right time and took care of the practice at catching dice and stopping a few gentle grounders. The practice lasted a couple of hours and would have lasted longer if the wishes of the players had been taken into account.

The other certainly had a wealth of material this year, their only possible weak spot being the pitcher's position and that through the lack of experience of the entire team. Pattersen was good in streaks but had a tendency to blow up at the crucial moment. This year the Tigers will be represented in the box by Alvin Stewart, who has been recruited from Alameda. This bird has lots of speed and great curves and if he is able to control all his will be a win. He has had considerable experience and should be a good pitcher.

Orville Wieden will catch this year and will be assisted by McDonald. Wieden was inexperienced last year and is showing much improved form in this season. He was a star in the pole vault and is the premier width of the big stick.

Capt. Bishop will hold down first base and will be seconded by Andy Townsend. Clegg, who is the star, rep. "Bish" will have good enough competition for his place. Duffy Seay has first call on the keynotes job, having been a star performer at that position since the first year.

Harry Kirkpatrick seems to have the short field position cinched on account of his decided ability and his fine whip. Harry was showing up in his hand and this injury stuck with him all through the season. He covers a huge amount of territory and is a fairly good stickler.

Wade Wride, last year's champion, is still on the team and probably will hold down the difficult corner, though he will have some mighty stiff competition from Horace Wride, who is the best batter and a solid fielder. The coach and captain are highly pleased over the number and quality of the recruits who showed up last night and all predict that things are liable to hum in the way of baseball this year.

### "BANZAI" IS GREETING OF TIMES MAN YESTERDAY.

Machado School Is Already Hard at Work Selecting Representatives for "Times" Grammar School Tournament, Which Means Vacation on Catalina for Winner. Plan Continues to Gain Favor.

THE TIMES CAMP MEETS ENTRIES.

City—Thirty-third street, Jefferson, First street, Custer street, Machado, Grand avenue, Euclid avenue, Avenue 54, Norwood Normal Training School, California, Berendo, Fourteenth street, Hoover, Page Military Academy and the Cambria-street school.

Suburban—Whitney, Venice, Beverly, Sawtelle, Long Beach, Arizona and Sherman schools have announced home meets in preparation for the suburban district schedule.

THE TIMES TRACK AND FIELD MEET PLAN.

The Times offers an eight-day vacation at The Times Catalina camp to the boy winning the greatest number of points in a home meet, to be held under the auspices of any of the city schools. Notice of the meet must be sent to The Times camp manager, Arthur Lee, at least two weeks in advance of the meet. The management of the meet will be in the hands of the school authorities or any whom they wish to select.

The Times offers a twelve days' vacation at The Times camp to any boy winning a place in the big June meet. Each school, holding a home meet, may send twelve representatives to this final meet.

The Times offers twelve-day trips to the winners in the suburban district meets. One meet will be held in each district to which any school in the district may send representatives.

There will be no competitions between the city schools or between the suburban and city divisions. No shoes with spikes will be allowed.

The Times' track and field management is ready to assist in the management of the meet or in the training at any time. Call up the Times camp manager, Arthur Lee, and ask him about it.

In the June meet, the final meet for the city schools, there will be races for juniors and seniors, the divisions to be made according to height. The height has not yet been set, but will be left to the school authorities.

No entry fees of any kind will be charged and track suits may or may not be worn.

Sixteen city schools have so far begun their preparatory work in training for The Times' track and field meet, and said meet and fifty suburban schools have organized teams and are getting ready for the district meets which will start immediately after the A.A.U. track and field meet, which will be held on Washington's birthday on Bovard Field. This means that the form shown by the boys was a delightful astonishment to the visiting man from The Times, and in a remarkably short time these young athletes have shown that they have indeed come to the ring and have won the admiration of all the track events and wonderful skill in the jumping and other field events.

The Machado lads did some huffing too. Forrest Smithson was not in them at all when he came to perfect his form. Running up to the advertised barrier with all the points but nine taken off, the young wonders would throw out a straight right leg, and, with the head in the position, would literally step over the position, without even touching the ground at the moment the forward foot touched the various meets.

The low stick stunts of Russell Twiss were particularly interesting to watch. With a good elegant start, this baby athlete should develop into a second Kraenzlein before his school days are at an end.

Young Ralph Rose was there in the person of Orville Harrel. Orville is a tall, thin kid of 14, who has a natural aptitude for putting the shot.

In the child's century, Alvan Ramsey was a bright star among the galaxy of shiners who paraded before The Times man.

The second set of short dashes was inaugurated for the good of the cause, and they were all hotly contested, and brought out a well definable element of competition among the boys.

A few suggestions were offered by the Times camp manager. The boys were all given to him a training advice. The starting of the juniors was most interesting and worthy of honorable mention.

Usually youngsters are not at all interested in the relay race, but as he has not had much competition, this will make a meet successful; it is interest and the success of a home meet will do more for the home meets.

The First-street school has the greatest number of students, as many of the best schools have a number of the best athletes; but the second-place meet will be given a chance at taking the tape away from the suburban district meets.

At the First-street school, where soccer, by the way, has been gaining a strong foothold and where a strong football team is to be seen, the track and field work has already been organized, with outside competition among the schools.

The Times plan emphasizes the importance of the track and field work in the schools, and the athletic aspirants were to be seen at all sorts of preschool attempts.

Everything was on the docket from the little ones, 4 and 5 years old, to the 12-year-olds, 14 and 15 years old, who are rehearsing the short sprints, and well knit shapes of the same age were bearing the iron ball from behind a broad jump. In addition to the track and field, the Jay army took the running broad jump and cleared the cross bar on the high.

The Times Camp man was surprised to find that the boys from the Little Miners, 10 and 12 years old, were rehearsing the short sprints, and well knit shapes of the same age were bearing the iron ball from behind a broad jump. In addition to the track and field, the Jay army took the running broad jump and cleared the cross bar on the high.

The Times Camp man was surprised to find that the boys from the Little Miners, 10 and 12 years old, were rehearsing the short sprints, and well knit shapes of the same age were bearing the iron ball from behind a broad jump. In addition to the track and field, the Jay army took the running broad jump and cleared the cross bar on the high.

According to Smith, San Francisco will be the city for the tournament of the Western Bowling Congress in April. He says that all the boys are going to boost for the northern metropolis.

The track is in very good condition, measuring a correct furlong, and well suited for the various events, the sharp turns. The most interesting race imaginable was a classy mile relay, in which sixteen of the embryo stars took an active part.

WEDNESDAY MORNING.

**Mr. Wad Has Invested in a Camera and He's Going to Try to Butt in With Newspaper Photographers Now!****De Witt Van Court's COLUMN.**

The next championship fight between Abe Attell and Johnny Kilbane would create more interest than the Cohn-Coley fight. While few thought Conley had a chance, there are quite a number that think Kilbane will be beaten. Attell, however, is one of the greatest men in boxing, and a hard one to hit effectively. He is about as clever on his feet as any one ever has been; he also moves in his fight with Joe Rivers and he is a good hitter with his right.

All these clever fellows to fight makes it easier to figure about what might expect and what his chances are after he has been in action for a time. The tough ones sometimes bring something that is entirely unexpected.

He has been fighting a long time and Kilbane has been coming along for the last six months. He is younger, but the difference in age is not enough to count very much in his favor.

Chico also is a much harder hitter than Eddy.

If Chico can make a good showing with Campi, he will be in line later on.

He will jump up the list of bantams to pretty near the top. This will be a great fight.

Chico is a very aggressive little fellow and clever at hitting, but not as good at defending himself. If he lands at any time, he will have on Campi, who will come very near ending the fight. Campi has been in the four-round game a long time and has a great following.

Billy Papke should consider himself lucky in getting Tom Jones to look out for his interests. Tom has landed a match with Billy from Frank Mantle in Sacramento for Washington's Birthday. I believe he will come back to the ring as soon as Jones starts to work on him. Papke has never been himself since he left Jones.

I have seen men like Papke before in the fighting game, good when they had the right man behind them and completely lost when left to themselves.

Many think Papke is a quitter. Several fights that he had would indicate almost the same thing.

But I believe that it is owing to the fact that he has no confidence in himself unless Jones is with him. His first defeat in Australia should not count against him much as he was stricken with yellow jaundice shortly after the fight. Jones and I are not in condition to enter the ring shortly after he fought the same man and knocked him out.

Bob Reed says he will enter twelve teams from the Grand alleys.

Frank Smith, W. V. Thompson and Fred Simpson will have for San Antonio the latter part of the week.

Frisco bowlers will hold a mass meeting Saturday night and the above-named gentlemen have been asked to attend and be entertained.

There is no place for spectators in San Francisco whooping things up in lively style and hopes to seat at least a dozen teams to the big doings next week.

It is going to be hard to tell just how rugged Attell is in his training, given the fact that he seldom does any very hard work. His natural weight is 122 pounds, all times and he never seems to have any work that most fighters have to do, to get into good condition. This is also true of Johnny Kilbane, but we will be able to tell whether he has lost any weight or not when he comes in himself as the time draws near.

Larry has taken Battling Chico and has matched him with Billy Campi, the little bantam from San Francisco. Campi has all the little fellows around the part of the State and is a fast runner.

Chico has not had as much experience as Campi, but is about as fast a fighter, but not as clever on his feet.

**BOWLING NOTES**

The work of installing the six new alleys for the Western Bowling Congress Tournament is going ahead rapidly. Fred Simpson, manager of the Brunswick-Balke Colender Company, who is in charge of the work, says that everything will be ready by the afternoon of Thursday, February 13.

That portion of the Consolidated Alley building in which the tournament will be held has been named and will be known until after the tournament as Tournament Hall.

Seating arrangements will be made for a thousand people. The check-in room, cigar stand and soft drink service will be awarded to the highest bidder.

W. V. Thompson, manager of the bowling department of the Brunswick-Balke Colender Company, arrived in this city from Chicago last Thursday. Mr. Thompson comes to the big local bowlers in handling the big "showcases." Not only is Mr. Thompson a bowler of national reputation, but he is a prominent member of the American Bowling Congress, the largest organized bowling body in the world. Mr. Thompson will address a mass meeting of bowlers Wednesday evening at 8 o'clock in Tournament Hall.

Consolidated Alley building.

Mr. Thompson will be in attendance at the welfare of the game should make it a point to attend this meeting.

Members of the Los Angeles Bowling Tournament Association gave a dinner yesterday noon at Levy's Cafe in honor of Frank Smith of Spokane, Washington, and W. V. Thompson of Chicago.

Secretary A. L. Jenkins of W.R.C. has received the entrance fee of this Chalmers Motor Company team of Chicago. This team won the national championship in 1910. The following day the team comes to town:

H. Sievers, Gus Steele (captain); J. Blouin, A. Rolfe and A. Leverenz.

Bob Reed says he will enter twelve teams from the Grand alleys.

Frank Smith, W. V. Thompson and Fred Simpson will have for San Antonio the latter part of the week.

Frisco bowlers will hold a mass meeting Saturday night and the above-named gentlemen have been asked to attend and be entertained.

There is no place for spectators in San Francisco whooping things up in lively style and hopes to seat at least a dozen teams to the big doings next week.

Bob Reed says he will enter twelve teams from the Grand alleys.

Frank Smith, W. V. Thompson and Fred Simpson will have for San Antonio the latter part of the week.

Frisco bowlers will hold a mass meeting Saturday night and the above-named gentlemen have been asked to attend and be entertained.

There is no place for spectators in San Francisco whooping things up in lively style and hopes to seat at least a dozen teams to the big doings next week.

It is going to be hard to tell just how rugged Attell is in his training,

given the fact that he seldom does any very hard work. His natural weight is 122 pounds, all times and he never seems to have any work that most fighters have to do, to get into good condition. This is also true of Johnny Kilbane, but we will be able to tell whether he has lost any weight or not when he comes in himself as the time draws near.

Larry has taken Battling Chico and has matched him with Billy Campi, the little bantam from San Francisco. Campi has all the little fellows around the part of the State and is a fast runner.

Chico has not had as much experience as Campi, but is about as fast a fighter, but not as clever on his feet.

Bob Reed says he will enter twelve teams from the Grand alleys.

The firm of Klaw & Erlanger will soon produce musical comedies bearing these titles: "Sweet Pansy," "The Primrose Villa," "The Count of Luxemburg," "Leclair," "The Little Cafetiere," and "The Man from Cooks." Whether or not there will be any live ones in this collection of flowers, edibles and geography?

Werbe and Loscher, charmed and delighted by the success of "The Spring Maid," hope to duplicate it with their new musical piece, "Rosemary."

Martin Beck has ceased to be general manager of the Orpheum Circuit. He is now known as "managing director," and all offices have been noted to note the title.

Frank Campau, who will be remembered for several performances of Tramps in "The Virginian," has joined Margaret Illington's "Kindling" company, now playing in Chicago.

Annette Kellerman has added singing to dancing and diving, formerly her own stage accomplishments.

Vivian Allen is now to be seen in a new piece by Rachel Crothers, entitled "The Herdards."

Dave Belasco and David Warfield are now known as prominent art buyers, and their money figures in almost every one of the larger sales made in New York.

Among the novel characters in "The Greyhound," in which Susanne Will is appearing, are "Whispering Alex," "Deep-throat," "The Palms," "Kings and Queens," and "The Eye." The plot is by Paul Armstrong and Wilson Mizner, and deals with the life on a trans-Atlantic liner.

The renounced Weber & Fields have decided to go out on the road after their New York season, and will play a limited engagement in Chicago.

Somebody interested made a loud New York howl because lithographs of Margarita Syva in "Gypsy Love" were used to advertise San Antonio's "Milkmaid." "The Pearl Maiden" was the difference, as long as there's a pretty face!

Last night William A. Brady presented Douglas Fairbanks to New York as star, in Owen Davis's play, "Making Good." The scene is laid in a Maine lumber camp.

Mrs. Louise E. Coghlan, widow of Charles Coghlan and mother of Geraldine, died in Chicago January 26, at the age of 55.

Al Woods, not to be left behind in the race for new musical shows, has acquired a Viennese operetta with the alluring name, "The Lilac Domino."

New Orleans had a surprise of famous women last week, the famous French actress has been joined by Dorothy Dale, and they two are producing Maurice Donnay's "The Return From Jerusalem."

Lina Cavalieri, it is said, will soon marry Muratore, the first tenor of the Grand Opera in Paris.

Owen Johnson, the author, was married a few days ago to Esther Ellen Cobb, a singer of San Francisco.

The Right Princess" She will produce it in Salt Lake City in April. Catherine Drinker Bowen will put out another time in "The Scarlet Way." She is the first successor of Frances Starr, and is said to be doing remarkable work.

Alexander Blaum, the author of "Madame X," died in Paris January 22. He was the author of twenty plays, and, it is said, was the author of Bernhard's first big success, many years ago.

Charles Martin has been managing "Little Boy Blue" in New York City, to the "Madame Ms" company (western), and will appear in Los Angeles week after next. Meekins was here with "The Merry Widow" a season ago.

Millie Ryan, Photo.

Millie Ryan,

Well-known musical authority and author of several musical books, who has been spending the winter in Santa Barbara and in Pasadena. Miss Ryan is director of one of the largest musical clubs in Omaha, and is considered one of the most beautiful women of the West.

Marie Flynn,

Seventeen-year-old star of "Madame Sherry," who is as solemn and serious as her youthful precocity would indicate. Getting a bank official's salary for being dainty, merry and delightful, her aged soul yearns for Shakespeare, Moliere, Aschylus and the pre-historic classics of Egypt. It is alleged that she can read hieroglyphics and Sanskrit—especially on checks.

Fans Skeptical.

## NEW WHITE HOPE WANTS A DATE AT VERNON ARENA.

BY GREY OLIVER.

**M**ANAGER McCAREY of the Pacific Athletic Club has discovered a new white hope.

It might be stated, however, that he has been found for him and it may be possible that McCarey will give him a date to see what he can do.

The name of the new one is Soldier W. Elder, and his manager has secured a big sum of money for a fight with anyone other than Jack Johnson or Sam Langford, with Carl Morris, Falzer and Flynn preferred.

He is said to be from San Francisco, and his money talk seems to be based on the fact that he knocked out three big dubs in the bay town recently.

This stuff does not amount to anything for Tom Jones declared here publicly that Jimmy Giblin was about the next best lightweight to Ad Wolgast and everyone knows what a poor excuse Giblin was. He was a man who had knocked out no less than six unknowns in short order and now we have another heralded as the same kind of a fighter.

The present crop of near heavyweights does not amount to very much and rather than get any of the hopefuls here at twice what they are worth as drawing cards, McCarey is thinking of putting on Cameron with Elder in a semi-final for some of the coming dates.

Jim Cameron will be remembered as the big local negro whom Jim Flynn passed up like a white chip here some months ago. Cameron is a fellow of considerable class, but not being able to get a fight on him he went to his trainer and said: "If he is not located and there is no one in condition, McCarey will give me a chance to show himself." Elder may be a wonder, but the only thing about him at the present time is that he has a millionaire moving picture man as his backer. This proves nothing as far as the fact that he has an "angel."

Jack Curley will attempt to pull off the Jack Johnson dream for this city. If he comes to interest McCarey in a bid for the fight his time is lost, for McCarey declared emphatically yesterday that he would not have the match at any price. The idea of anyone paying Jack Johnson to fight the whole negro laugh. At that such a match would attract a good sized crowd of fight bugs even here where both are known, but the boys would go merely to see Johnson play with Flynn a few rounds before he knocked him out. If Flynn has a chance with Johnson, I certainly have.

Joe Rivers will not begin training until March 1, for his match with Jack White. Rivers looks good now and seems to be taking good care of himself.

Joe Rivers wife, Manager Fred Gillmore, brother of Harry Gilmore, the sixteen-year-old Herrick, were scheduled to leave Chicago last night for this city. White is to fight Rivers here March 16.

In the lightweight line McCarey has several prospects in sight in Dillon and McGroarty who desire to come here and show themselves. Dillon

writes that he would fight Petrosky, Klaus or Holland, but the chances are that until Mac gets Attell and Kilbane and Rivers will be the end of the road. He will be the star of the big fellow. One-round Hogan and Freddie Welsh are also possibilities.

Frankie Conley is to stick around here several more weeks and rest, according to the manager made yesterday by his manager, Tom Jones. In a joshing bee the other day Harry Gilmore said that he thought Jack White could stop Conley in ten rounds.

Conley posted \$1,000 yesterday that if White won from Rivers and no other better matches were in sight, the Conley proposition would doubtless be taken up seriously.

I would like to have some of our snobish young friends observe the conduct of the titanic young Englishmen now playing polo at Pasadena. They are all simple, democratic, unassuming young sportsmen. They are not puffed up. They are the real thing; they don't have to be puffed up.

Packey in Front.

**N**EW YORK, Feb. 6.—[Exclusive Dispatch.] Packey McFarland of Philadelphia, who coached the Princeton football team into the championship last fall, thinks that the new rules indicate a regime of "Tale football" of the old line-shattering type. He explains:

"The changed rules mean that hereafter the best team will win and win by a handsome score. I am a little disappointed, for I like to see the same fellow have a chance."

"I think the fact that the forward pass is legal anywhere, and the retention of the same distance to be gained, have made the game a great one from the offensive standpoint. A team can march right down the field for touchdowns."

"A small team with a great kicker will no longer have a chance of carrying off the honors by drop-kicking, for it will take three goals from the field to better a score from touchdown. It will be the policy of members of the rules committee that the line hammering will not be used so extensively under the present code, but if they think that they have been misled."

"Now, however, with a good one to watch, I will say that for it, once the better team gets the ball, it will be able to make its way right along the line. The poor defense is going to take a pounding this fall."

**NEW LEAGUE WILL OPEN IN MAY.**

BY A. F. NIGHT WIRE TO THE TIMES.

PHILADELPHIA, Feb. 6.—William Abbott Wilman of this city, president of the new United States Baseball League, issued his first official bulletin tonight, announcing the completion of the circuit. The season will open May 1. Contracts with players will be made from one to three years, and the expiration of their contracts the men will be free agents. There will be no reserve clause. The owners of the franchises are:

New York, Charles White; Brooklyn, A. H. Hussey; Reading, William Abbott Wilman; Newark, J. J. McGuire; McKinnon of Washington and F. L. McCabe of New York; Richmond, E. L. Landgraff of New York; Pittsburgh, Capt. Marshall Henderson and William McCool; Cincinnati, John J. Ryan of New York; Cleveland, William T. Murphy.

WEDNESDAY MORNING.

FEBRUARY 7, 1912.—[PART II.]

## MUSIC AND STAGE

(Continued From First Page.)

**Y**oung and is by far the best young act seen here for some time. Thompson and Roberts offer "The Oracle and the Devil." The novel is punctuated with new and fresh jokes. The two also render several new songs. The Lombardi Duo in grand opera numbers are very good. The male member of the duet has a bass voice of great volume. The Mount Brothers in an acrobatic stunt, "The Burglar and the Clown," present something new. The Adolphus octette and the Adelphones complete the bill.

**T**here are exactly half-a-dozen and more of amusement this week at the theatres. The extra two are the twin plays of motion pictures. La Foyde opens the programme. La Foyde is a picturesque person, who figures in the center of a score of stereopticons and dissolving views. The other play is "The Devil and the Devil's Kiss" with Bert, Clayton and Reiff following with a single-tablet dancing comedy, in which the male member of the trio makes the hit. She is an exceedingly agile girl, and good to look at. The Frank Frazee and Grace Bainbridge and K. Bradshaw present "Our Cast." All three members of the cast share equal share in the rapid fire show, which is a hot-blooded travesty for disinterested wives of over-worked business men. Billy Noble and Jeanne Brooks, daffily described as the programme man as "The Devil and the Girl" will do their best to live up to the title in songs, dances and repartees. Stoll and Berney dance the Texas Tommy in another of its variations. They are musical and the Texas Tommy seems to be the only argument not hitherto mentioned. About Hamad's Arabs are as wonderful as ever. These enthusiastic acrobats never fail in commanding their audience's enthusiasm to the highest point. They were every moment on the stage and work hard, their peculiar twisting somersaults and hand springs will probably be appreciated by anyone who has tried to show the somersault or acrobatum values of these stunts. The pictures are a mutually suspicious married couple and what happened to them make a handy man about the house and the cause of his reformation.

From the Morosco-Blackwood office comes the announcement of three more big plays which will open for the coming stock production in Los Angeles. Yesterday Oliver Moore announced that he had secured "Seven Days," one of the biggest comedy hits of recent years, for the Burroughs. "The Great Name," from Henry W.

Thompson, in which this manager last year starred Henry Keller successfully, is to follow. "The Third Degree," one of the most successful of the plays of the season, Charles Klein plays, which is still being played throughout this country by the 12 troupes comprising the "Klein Circuit." Heribert B. Harney's newest comedy hit, founded on George Randolph Chester's well-known stories.

These plays are scheduled for early next week at either the Burbank or the House Theater and should make most interesting offerings when they are given, as all have achieved more than ordinary fame in the East, while we are entirely new to the West.

"The Fourth Estate," which the Burroughs company has had in preparation for some time, is now completed and ready for presentation; in fact, the piece could be given tomorrow night, should there be demand. "The Fourth Estate" is the largest play ever presented by the Burroughs company. For this purpose three huge machines are necessary and each one weighs one ton.

"The Wages of the Cobbler Patch" will give its first stock production at the Burbank Theater next week. "The Wages" is one of the most popular plays of the year. The characters have not yet come to the American stage, while it is one of the most successful, if not the most successful play that has been dramatized from a nov-

el. Wally Underwood, an actor well known to local audiences by reason of his frequent appearances with the local stock companies, made his debut again to see on the local stage, making man with Mrs. Leslie Carter, in "The Wages." This actress comes to the Burbank theater next Monday night to repeat Hether's emotional play.

This actress comes to the Burbank theater next Monday night to repeat Hether's emotional play.

One of Deane Worley's famous comedies is now in the city, "The Wives Next Monday," and will come to the stage next Monday afternoon. This is the biggest show that the "Comics" circuit has yet given. "The Wives" will begin its fifth and final run at the Grand.

**Burglar Confesses His Crime When the Police Try Methods of the Fatherland on Him.**

After applying the principles laid down in the book of rules on the art of thieving, Detectives Browning and Bryan last night obtained a full confession from a Japanese prisoner accused of having robbed a compatriot.

Later, they recovered the sum lost, which had been hidden in the pocket of the prisoner, who lives at No. 145 Quarra, who lives at No. 145 Quarra, reported to the police yesterday morning that some one had entered his room during the night and carried off the contents of his savings. Later, he was picked up at the City Jail and admitted that he had been in the room of the prisoner, who had been hidden in the pocket of the prisoner.

White, formerly a member of the police department, was called in to act as an interpreter, but was unable to make any progress until it was suggested that the Japanese knew the language of the Japanese and of dealing with the Japanese.

The suggestion immediately was met with the result that a few hours later the Japanese had broken down. He told the police that he had entered the man's room and taken the money from a pair of drawers laid across the bed.

Speaking further, the prisoner admitted that the package containing the money he had taken was part of the robbery. Uttering no words of apology for having committed the offence, he was sent to the police station in his country. Tant was led to a cell where he remained until his trial in the Police Court.

## TAFT ONLY CANDIDATE

(Continued From First Page.)

to accept a nomination even in the very remote possibility that it would be tendered him. It is the sideshows that are the main attraction of the show is scheduled soon, and Taft will be the main and only attraction there.

**TREMENDOUS GAMES.**

Throughout the West and in fact over the entire country Taft has made tremendous gains. The objections that have been raised against him are not valid, and when threshed out in the campaign will be understood, with consequent great gain in his support. It will be recognized more and more as the campaign progresses that Taft has steadily pursued a safe and sane yet progressive course, that he is level-headed and patriotic, putting the good of the country first and personal second. He has the courage of his convictions, and is absolutely above suspicion as to integrity of purpose and loyalty to his constituents. He will be a honest, upright, incorruptible statesman, and I believe that he will be a great man. If you tickle the grass roots all over the country and plant your ear to the ground and correctly gauge the sentiment of the people everywhere, you will develop a sentiment in favor of Taft that I believe will render him the President. Through the league of cities (of which Spokane is the head) I have kept in touch with the sentiment all over the country, and I believe that a correct estimate of the situation would show Taft a stronger man than any other before the people. Millions of people in various parts of the country—and I regret that California was so misrepresented—have stated that different sections of the country are for other candidates. The reasons are that they have not correctly analyzed the localities which they have misrepresented. Especially is this true of California, where the Pacific Coast especially stands for Taft. A new view of the great service he has at different times rendered this western coast. Taft is not paying any attention to any other over, and he will be nominated and elected.

"The Times has referred once or twice to a mention that has been made of what is considered my candidacy for Vice-President, and I want to say that I am not an aspirant for the office, and that I do not care if I will have any place on the national ticket. I have enough other things to do after this."

"Various conditions over the country are as good as could be expected. Politics operates against Roosevelt, which naturally causes a slackness which will quickly recover as soon as the national conventions are over. Considerable business year.

"Nothing is more pleasing to me than the remarkable development of Los Angeles and its intermediate territories. I was stoned down here from San Francisco in 1849, forty-two years ago—and camped on the outskirts of the town, where I saw a bear, but you don't see any bears here now, but always a boy or two boys in various professions and the mercantile world, which is the administration and the envy of the whole country."

The distinguished visitor is accompanied by his son, Harris Hammond, and one or two friends. The party goes to the "off-watch" at the Alvarado and enjoys a banquet at Casa Verdugo yesterday afternoon and formulated plans for their annual ball next April.

It is the plan of the boys to interest all hotel employees in the city in their hop and make this season's affair eclipse all other events of a like nature. An invitation to attend is to be extended all day officials and friends and the boys in various professions and the mercantile world.

They anticipate at least 500 couples at this year's ball.

Nat Silverman, better known as "The Little Tailor," after an entertaining amateur vaudeville programme was presented. Abe Arguello gave a burlesque on the Spanish dance, Stanley easily recited a George Ade's monologue, William Flory did several clever juggling stunts, Frank Roman gave a vocal selection and Silverman portrayed a character from the Merchant of Venice.

The boys are busy meeting new week, at which further plans for the ball will be discussed.

**THIEF GETS TROPHIES.**

While the family of T. E. Jennings of No. 525½ Spring St., were dining last night a thief entered by the front door and succeeded in getting away with two valuable leopard skins which had been captured in an attempt to break into the home of the household around the evening meal the theft was discovered, but there was no trace of the burglar, although some of the neighbors searched the vicinity.

## THE WEATHER.

**OFFICE:** H. E. WEATHERS, BUDWEISER BREWERY, 100 S. Spring St., Los Angeles, Feb. 6.—(Reported by A. C. L. Local Forecastor.) At 5 o'clock yesterday morning the weather was clear and bright, with a temperature of 54°. Wind velocity, 10 miles; 5 p.m., 10 miles; 8 p.m., 10 miles. Rainfall for sea port, 1/16 in.; inland, 1/16 in.

There were new low tides at 4 a.m. and high tides at 10 a.m. The San Pedro Navigation Company's steamer Harvard left today on schedule for San Francisco. In addition to regular schedule, the Harvard, after arrival on next Sunday, will proceed to San Francisco. The ship is now en route and is on dry dock at San Francisco. Instead of arriving on Tuesday, the Harvard will proceed to San Francisco.

The big barkentine John C. Meyer has now completed her 10,000-mile tour of the world. She is en route from San Francisco to San Pedro, where she will proceed to San Diego. The Charles will take passengers and freight for the West Coast Steamship Company at San Pedro.

The North Pacific Company's steamer George Washington, which had not arrived, is expected to arrive Saturday afternoon. The ship had been delayed in leaving Astoria and by the time she reached San Francisco was 24 hours late.

The El Dorado will proceed to San Diego. The Charles will take passengers and freight for the West Coast Steamship Company at San Pedro.

The San Pedro Lumber Company has scheduled a sail tomorrow in tow of the San Pedro Lumber Company. The Charles will take passengers and freight for the West Coast Steamship Company at San Pedro.

The San Pedro Lumber Company has now completed its 10,000-mile tour of the world. The ship is en route from San Francisco to San Pedro, where she will proceed to San Diego.

ROCK SPRINGS (Wyo.) Jan. 8.—Q.: Two of my friends here are in a dispute over the proper mineralogical name of the sulphide contained in the local sample of coal.  
 Will you please classify? "MAC."

No Wolframite.

TEMPE (Ariz.) Jan. 8.—Q.: I have sent you a sample from a dry-wash twelve miles west of Tempe. I have shown it to a number of mining men, who claim that it is wolframate, while others claim that it may be mica. J. R. M.

A. The sample is hornblende granite, and does not carry a trace of tungstic acid.

Sulphides.

SONORA (Ariz.) Jan. 8.—Q.: I am sending samples of rock from near Tompkins. Please tell me what they contain. H. H.

A.: The "rock" sample No. 1 is made up of nearly all varieties of copper minerals known. It is zinc with lead is present in the mass, also calcite. Sample No. 2 is a mixed sulphide carrying pyrite (iron sulphide), chalcocite (yellow copper sulphide), pyrrhotite (iron pyrite), aragonite pyrite, and pyrrhotite (magnetic pyrite). The sample reacts for traces of nickel, zinc and lead.

A BEGINNER.

The sample is ferro-vanadium, and weighs \$2.50 per pound.

Feruginous Quartz.

LOS ANGELES, Jan. 8.—Q.: Please let me know if this sample of ore has a value, and in what it may contain.

"PATSON."

A.: Quartz with iron oxides present, and it is pseudomorphic after pyrite. It should be assayed for gold.

Traces of Nitre.

LOS ANGELES, Jan. 8.—Q.: Will you give me an idea what this sample contains? READER.

A.: The sample is a mixture of sulfates and carbonates, from oxides present, we also potassium nitrate weighing.

Siderite.

TUCSON (Ariz.) Jan. 10.—Q.: The enclosed specimen was taken from a small ledge in the Big William's Fork area. I believe it is siderite, zinc or tungsten. D. J. S.

A.: Siderite is native iron carbonate. The sample is a typical tabular form of the mineral. Hardens at specific gravity 3.5. Of vitreous pearly luster, and grayish-brown in color. Soluble with effervescence in hydrochloric acid, but more readily soluble in the acid is dilute sulfuric acid. Glauber and manganese reaction. "Blackens and evolves carbon monoxide and dioxide when heated in a closed tube."

**APIARISTS IN CONVENTION HERE DISCUSS CONDITIONS.**

Hundreds of Tons of Honey Marketed Last Year, and Fruit of Tiny Toilers is Reported to Be Greater This Season—Northern Association to Affiliate.

Approximately 300,000,000 faithful, industrious makers of honey were represented yesterday at the opening session of the California State Bee Keepers' convention, in the auditorium of the Young Men's Christian Association building. Apiarists who marketed nearly 400 tons of honey last year met for a three days' discussion of the best means for getting results from the hives.

Much rejoicing was caused by the receipt of a message by Secretary A. B. Shaffer of the association from Northern California Bee Keepers' Association, stating the latter had decided, after ten years' independent existence, to join the local body, which was inaugurated and has been developed by Southern California beekeepers. Hereafter, the scope of the association will embrace all the great honey-producing sections from San Diego to Shoshone. A reorganization will be effected at this meeting.

President E. G. Burdick, Redlands, called the convention to order. There were addresses by Rev. J. W. Neely of Los Angeles; William A. Lamb, Los Angeles; Albert Dodge, Pasadena, and Secretary Shaffer of Los Angeles.

The following-named committees were appointed: Constitution, T. O. Andrews; Covina; D. J. Lyman, Los Angeles; Prof. Ralph Benton, M. H. McDonald, Ventura; Frank Phillips, A. H. Shaffer, Redlands; E. A. Hoey, Orange; T. O. Andrews, C. H. Shock, Riverside affiliation; J. D. Bishop, Covina; John C. Frohlicher, San Francisco; George Emerson, Los Angeles; Panama-Pacific Exhibit; M. H. Mendelsohn, George Emerson, Ways and Means Committee; W. K. King, Santa Ana. There were 120 delegates at yesterday's sessions. Doubtless this number is expected to attend today.

It was reported that William H. Alton Venard, president of a group of apiarists received \$12,000 for honey last year. T. O. Andrews, of Covina, reported having secured sixty tons of honey from his four apiarists last season. The bee industry is increasing by leaps and bounds. It was declared.

This morning at 8 o'clock A. J. Johnson of El Toro; DeLois Wood, Santa Barbara; Henry Perkins, Artesia, and George Horner, Covina, addressed the delegates. J. D. Bixby, of Covina will tell about the black brood disease, this afternoon, and reports from the inspectors of seven southern counties will be heard, after which there will be the annual election of officers.

**MOTORCYCLE PRANK.**

A. W. Hall of No. 466 West Avenue sustained a broken left foot yesterday when he skidded under an automobile on the Compton road near the aviation field. It was necessary to use jack-screws to raise the auto off the motorcycle. The guardrail on the hillside was broken.

**SHE BLAMES THE BOYS.**

Young Woman in Jail on Bigamy Charge Says They Are Sure Because She Turned Them Down.

Annie Lover, a pretty Irish girl, is in the County Jail, either the victim of fate, or a designing minx. The story, the prosecution goes, is that she married John Ervin Walker, knowing she had a husband living, and therefore she is guilty of bigamy. She declares she believed her husband dead when she wedded the young chauffeur.

Annie's eyes flashed dangerously when she was asked if she knew her husband was alive when she became Walker's wife.

"I look like a girl who would do that?" she cried. "I am innocent. My father was told at the post office at Sayville my husband had been killed. I inquired around and found no reason to doubt it. How could I tell? My husband was away and never heard them tell me I was married and they told me I was a bigamist."

"It's put up job, that's what it is," she continued. "When the boy was married he was a widow, and the horse is worth two and three times as much as he was then. With the introduction of the automobile, the truck and other useful vehicles, many are still written about the doom of the horse."

From statistics gathered by the government some great mistakes have been made in the past. There are now 32,000,000 horses in the country, against 14,000,000 ten years ago.

The average value then was \$44.61, while at this time the average value has been raised up to \$97.44.

"The total value of horses has risen from \$6,250,000 to more than three billion. Where I formerly paid \$32 to \$50 for a fine animal, an ordinary horse now costs the government an average of \$150 to get the best stock. There is a reason for it in the wider range of usefulness for horses and in the natural increase in population which needs horses."

**TALKING ABOUT THE BUSY BEES.**

**APIARISTS IN CONVENTION HERE DISCUSS CONDITIONS.**

Metal Expert Lane's report to the Board of Supervisors Monday, condemning the metal trim installed in the Hall of Records, brought forth a statement yesterday from Carl Leonard, general contractor, in which he declares the manufacturers of the material lost money by the contract instead of realizing a profit of \$25,000.

Leonard states that the Supervisors installed interior finish specifications of their own volition, and deducted \$102,770 from his contract without consulting him in the matter.

Responsible and competent manufacturers installed the interior finish material for the stately edifice, according to Leonard, and the material was shipped direct from the factory and installed.

"The facts in regard to the interior finish, or 'metal trim,' as it has been called, as far as I am concerned," said Leonard, "are these:

"The specifications for the construction of the greater portion of the building. When the contract was prepared by the county it contained a right to change the interior finish if the Board of Supervisors saw fit, and compelling me to give up this portion of my contract and deduct from my compensation.

Joe says he had to sue to have the only question to be passed on is whether a supervisorial district is such a territorial division of the state as is contemplated by the law.

Joe says the right is and that residents of such a district might declare whether they would have local option or not. For the other side, Col. Herbert Choyński of San Francisco, and other counties, townships and the like are divisions, but that a supervisorial district is not mentioned in the Constitution.

FOR HIS NEGLECT.

C. E. Kendall, who was running a car in an automobile, the buggy that was being driven by E. P. Kleinmeyer during aviation week, neglected to report the accident, was held to answer to the Superior Court yesterday.

You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—it cures. Try it when you have a cough or cold, and you are certain to be cured. It is a safe medicine, and will effect what it promises.

It is a good medicine for colds, and it is good for the colds.

The work was given, as I understand it, to one of the two responsible and competent manufacturers in the city, and the work done is excellent.

Mr. Harry and Wallace Collings. Special attention is given to the work.
